R82 High-low:xo electric indoor frame for x:panda

Code (s) : 0500-89012131, 0500-89030231

The High-low:xo is an indoor/outdoor frame with user friendly height adjustment from floor to table height. The frame is matched to the x:panda seating system and configured to match the needs of the user and caregivers. With various functions and accessories it allows you to tailor a solution to meet each individuals needs. This solution can assist in compensating for the limitations in body function and structure, to enable activity and participation, while also taking the environment into account.
