R82 x:panda shape seat wedges

Code : 0500-9105

R82 x:panda shape foam seat wedges provide control and positioning. They create a gentle contour in the seat to accommodate the ischial tuberosities and increase the contact area between the user and the cushion, helping prevent the pelvis from rolling backwards.

FEATURES

- To suit the R82 x:panda shape
- Provides control and positioning
- Gentle seat contour accommodates the ischial tuberosities
- Increases contact area between the user and the cushion
- Helps prevent the pelvis rolling backwards
