R82 Addax chest support belt for prone tray

Code : 0500-912155-90

The R82 Addax chest support belt attaches directly to the prone tray on the R82 Addax standing frame, providing postural support around the trunk to help the child maintain a stable, upright standing position. It offers a snug, secure fit, with circumference easily adjusted using hook and loop and secured with a buckle for quick, straightforward setup. Available in black wipeable fabric to suit clinical hygiene requirements.
