R82 Addax extension pad with mounting options

Code : 0500-912143-90

The Addax extension pad with mounting option for the R82 Addax standing frame provides additional support for the child's upper back, helping maintain a stable and comfortable posture. Mounted on top of the chest pad, it creates a larger support surface and includes slots for attaching upper arm supports, offering even greater customisation to meet the child's needs. The height of the extension pad can be adjusted easily without tools, making setup quick and convenient.

FEATURES

- Extra upper back support
- Mounts on chest pad
- Slots for upper arm supports
- Tool-free height adjustment
