## Community care

# Welcome

At Cubro®, we believe in quality of life for all, regardless of age or ability. We're a trailblazing company that has been innovating and shaping the future of healthcare since 1983.

We provide a range of specialist equipment solutions that are designed to make it easier for healthcare professionals to deliver the best care possible. Our goal is to revolutionise healthcare through innovation, and we're dedicated to caring for people and finding life-changing solutions that help achieve the best health outcomes in our clients' unique environments.

We are privileged to have helped so many New Zealanders to live better lives, and we look forward to partnering with you to help many more.

## Domiflex 3 bed

- Increased travel range of 350 – 800mm for ergonomic entry and exit, and optimal care height
- Cable-connected hand control with locking function and numerous adjustment possibilities. The soft buttons provide comfortable haptics and safe handling
- Space saving storage with fold up design
- Tool-free connection technology enables a quick and easy assembly and disassembly
- Trendelenburg and reverse Trendelenburg functions
- Sprung slat base for pressure care and ventilation

Code: 913/WA

Safe working load	190kg
Max user weight	155kg
Overall dimensions	W 1030mm L 2107mm
Folded dimensions	W 1174mm D 475mm H 1443mm
Sleeping surface	W 900mm L 2000mm
Mattress platform height	350 – 800mm
Angle adjustment	Back 70° Knee 55°
Underbed clearance	150mm
Product weight	78kg

- Tool-free extension kit to 2200mm length available
- Integrated, continuous side rails for optimal protection
- 4-section lying surface with comfortable wooden slats
- Motor: Splash-proof according to IPX4, high-quality spiral cable with strain relief and kink protection, SMPS plug transformer with extra-low safety voltage offering safety from the socket

### ACCESSORIES (see page 11 - 13)

#### Extension kit

Code: EL913

## Domiflex classic ultra low bed

- 4-section electric bed including automatic triple action kneebreak and height adjustment
- Trendelenburg and reverse Trendelenburg functions
- Sprung slat base for pressure care and ventilation
- Mains isolation to prevent magnetic and electric fields being generated in the bed
- Battery for emergency lowering
- Clear access under bed for hoist transfer and cleaning ease

Code: 915/WA

Safe working load	170kg
Max user weight	135kg
Overall dimensions	W 1030mm L 2210mm
Sleeping surface width	900mm
Sleeping surface length	2000mm

Clamp dimensions	W min 20mm max 40mm H min 50mm max 70mm	W min 20mm max 40mm H min 50mm max 70mm

- Side rails lower to below mattress
- Easy to install and remove

### Clamp-on side support rail

Code: 5109-2

Safe working load	150kg
Overall dimensions	W 250mm H 545mm

- Provides safety and support when getting out of bed
- Easy to install
- Screws included

### Swing-away side support rail

Code: 5131

Overall dimensions	W 400mm H 400mm
Clamp dimensions	W 32mm H 40mm

- Provides support when getting out of bed
- Unlocks and pivots

### Bed support pole

Code: 5113

Safe working load	75kg
Height	1300mm
Handle height above mattress support platform	min 700mm max 1000mm
Product weight	6.5kg

- Height adjustable handle
- Easy to attach

### Side rail bumpers

Cannot be used with  
Slimline endboards

Code: 5115

Code: 5175

Suits	Standard full-length side rails	Extra long full-length side rails
Overall dimensions	H 340mm L 1900mm	H 340mm L 2200mm
Product weight	0.65kg	0.7kg

- Additional protection for fragile individuals
- Side rails still move up and down with bumpers attached
- Designed to fit the full-length side rails

### Fold down side rail bumpers

Code: PS910T

Overall dimensions	L 1500mm H 450mm
--------------------	---------------------

- Additional protection for fragile individuals
- Fits 910T fold down side rails

### Foot end cross bar

Code: 5180

Code: 5181

Code: 5182

Bed size	Single	Super single	Double
Width	900mm	1100mm	1400mm

- Clips on to Practico or Belluno beds in place of the endboards so sheets and covers can hang down over the end of the bed
- Easy to attached and remove - no tools required

### Bed extension kit

Code: 5066

Code: 5067

- A unique pivot bed for people who have difficulty getting in and out of bed - they are now able to do so with no physical effort. By just a single touch of the remote control, the bed is elevated to a chair position and can be programmed to exit oblique or perpendicularly towards the room. This can be programmed to exit either left or right
- Quiet and comfortable rotating mechanism
- Reduces workloads for staff and saves time and money
- Low bed height of 320mm
- Intelligent height adjustment, the bed's exit position can be programmed individually depending on the user's height and leg length
- Built-in mattress system is a four-layer quality mattress that has been custom made for RotoBed. It offers prevention and treatment of pressure ulcers in stages 1-3 with the option to have the ROHO® Dry Flotation Mattress which offers treatment of pressure ulcers in all four stages
- Wide range of accessories available including backup battery, bed rail covers, under bed lights and many more
- 4x 100mm braking castors
- Meets international standard IEC 60601-2-52

- Twin mast for greater strength
- 18mm thick laminated top
- Tiltable table top for reading and other activities
- U-shape base for ease of positioning
- Knurled adjustment poles to prevent slippage and rotation

## Roma® overbed table - grey

Code: 576G

Top size	L 770mm W 425mm
Table height	min 790mm max 1040mm
Base height	100mm
Width inside base	740mm

- Gas-assisted height adjustment ideal for one-handed operation
- Easy clean and care
- Durable and made to last
- 4x 50mm twin braking castors

## Wi-bo® overbed table - lindberg oak

Code: 20101

Top size	L 420mm W 865mm
Table height	min 725mm max 1055mm
Base height	100mm
Width inside base	665mm

- Premium and modern design
- Exceptionally stable
- Large dining surface reaches to the middle of a bed
- Height adjustable
- Easy to move on 50mm double castors

## U-base overbed table

Code: 576

Top size	W 770mm D 425mm
Table height	min 790mm max 1040mm
Base height	100mm
Width inside base	740mm

- Spring assisted height adjustment ideal for one handed operation
- Easy clean and care
- Durable and made to last
- 4x 50mm castors

## Overbed table with white antimicrobial top

Code: 576M

Top size	W 828mm D 467mm
Table height	min 670mm max 1070mm
Base height	100mm
Width inside base	740mm

- One-piece, injection-moulded table top is seamless for superior infection control and for easy cleaning and care
- Heat resistant and does not stain like other plastics
- Made with CESA
- Ideal for one handed operation
- Durable and made to last
- 4x 50mm castors

## Guide to our mattress pressure ratings

The Cubro pressure gauges featured on our mattresses are intended to be used as a guide to indicate the level of pressure relief. We have not used the Waterlow, Braden or Norton Scales to rate our pressure care equipment, as these scales are not designed to rate or class pressure care equipment. Instead, these scales are useful assessment tools designed to help clinicians to measure and evaluate the risk of pressure injuries for each individual client.

If you would like help choosing the right mattress for your client, please get in touch.

Enhanced comfort and basic pressure redistribution for individuals at low risk of developing pressure injuries

Pressure redistribution and comfort for individuals at moderate risk of developing pressure injuries

Pressure redistribution and comfort for individuals with existing, or at high risk of developing, pressure injuries

## Viscoflo overlay - single

Code: 830

Size	Single
Overall dimensions	W 900mm L 2000mm H 70mm
Product weight	7.6kg

- Add on to a standard mattress to provide greater pressure relief
- Made from natural, non-toxic and environmentally friendly raw materials

## MediFlex® mattress

Code: 1660

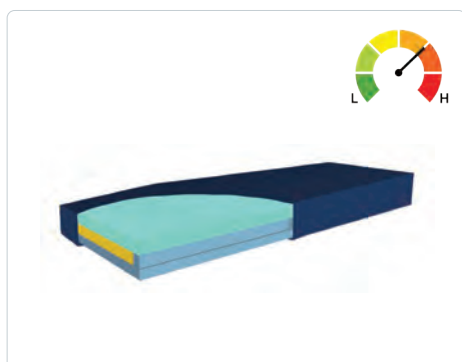

Code: 1661

Size	Single	Super single
Overall dimensions	W 900mm L 1980mm H 150mm	W 1100mm L 1980mm H 150mm
Product weight	10kg	12.2kg

- Deep castellations help the mattress conform to the contours of the user and the bed
- Low density heel zone offers maximum pressure relief and gentle support for the vulnerable heel and ankle area
- Enhanced comfort and pressure redistribution
- Foam side borders assists transfers and helps to prevent roll out
- Breathable, waterproof, antibacterial and bi-elastic polyurethane cover
- High frequency welded seams and concealed zip for infection control

## Funke Hyper AIR® hybrid air cell mattress

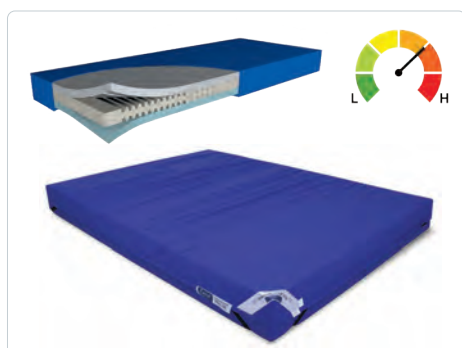

Code: 2253

Bed size	Single
Safe working load	250kg
Overall dimensions	W 900mm L 2000mm H 160mm
Number of cells	8
Product weight	12kg

- Bi-elastic cover to minimise shear forces
- Top layer made with ECOLAST foam
- 8 adjustable air cells for ideal comfort
- Supportive Visco foam mid layer, features unique Geltouch foam technology with breathable open cells that create cooling effect
- No risk of failure due to self-inflating foam-in-cell technology
- Supersoft gel foam zone for head relief

## Bariatric mattress

Code: 1556

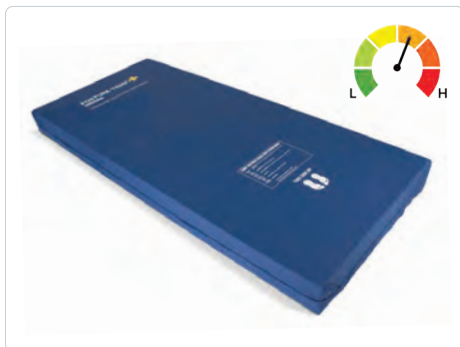

Code: 1557

Code: 1558

Size	Super single	Double	Queen
Safe working load	250kg	250kg	250kg
Overall dimensions	W 1100mm L 2000mm H 180mm	W 1400mm L 2000mm H 180mm	W 1500mm L 2000mm H 180mm
Product weight	22kg	24kg	30kg

- Three-layered hyper-elastic foam core with longitudinal and diagonal intersections
- Optimum pressure relief and minimum shear force (below 2.4kPa pressure)
- Super soft zones for head and heel relief
- Two-way stretch, breathable and waterproof with ultrasonically welded seams and a concealed zip
- Cover is chemically and thermally treated according to the directives of the Robert Koch Institute and is virus and bacteria proof
- Easy clean and care PU-Tex cover can be removed and machine washable up to 95°C (disinfectant cleaning and autoclavable)

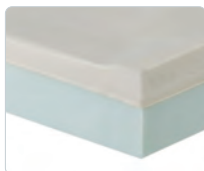

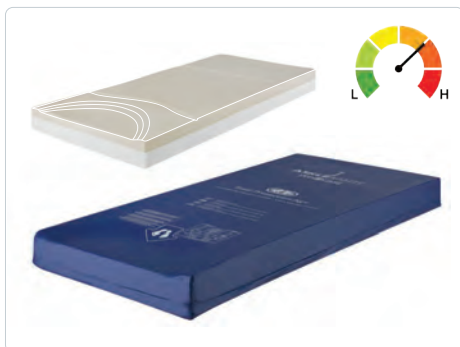

## Posture-temp® mattress

	Code: 987	Code: 994	Code: 992	Code: 989
Size	Single	Super single	Double	Queen
Overall dimensions	W 900mm L 2000mm H 150mm	W 1100mm L 2000mm H 150mm	W 1400mm L 2000mm H 150mm	W 1500mm L 2000mm H 150mm

- Designed to reduce shear and friction
- The bi-elastic waterproof cover is breathable, stain resistant, fire-resistant, anti-allergenic and has antimicrobial properties
- Concealed zip and high frequency welded seams provide superior infection control and help prevent the ingress of fluid and bacteria
- Non-slip mattress base

## Alova multi-support mattress with heel relief

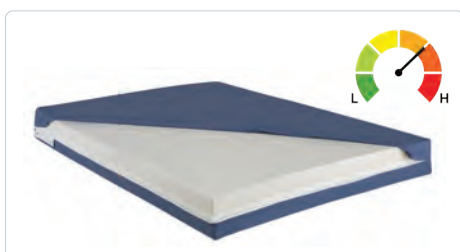

- ⊖ **Top layer:** Softer, 60mm moulded viscoelastic foam for comfort and pressure reduction
- Base:** Denser, 80mm polyether foam for stability and to prevent bottoming out

Code: 1960	
Size	Single
Safe working load	150kg
Overall dimensions	W 880mm L 1950mm H 140mm
Foam density	Top layer: (60mm) >75kg/m <sup>3</sup> Base layer: (80mm) >28kg/m <sup>3</sup>
Product weight	15kg

- Designed for prevention and healing of pressure injuries
- Three different support zone surfaces for the head, sacral area and feet
- Integrated heel contour
- Removable Promust polyurethane heavy duty waterproof cover is machine washable to 90°C

## Alova® XXL mattress

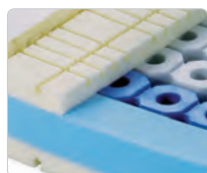

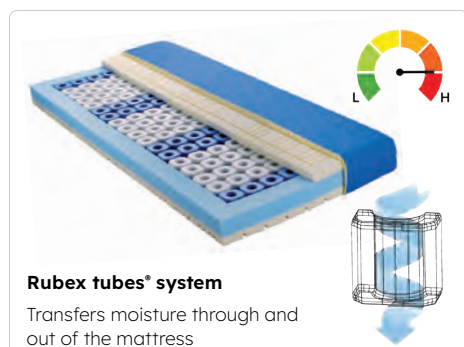

- ⊖ **Top layer:** Softer, 60mm moulded viscoelastic foam for comfort and pressure reduction
- Base:** Denser, 80mm polyether foam for stability and to prevent bottoming out

Code: 1964	
Safe working load	135 – 270kg
Overall dimensions	W 1170mm L 1950mm H 170mm
Foam density	Top layer: (70mm) >75kg/m <sup>3</sup> Base layer: (100mm) >42kg/m <sup>3</sup>
Product weight	30kg

- Viscoelastic foam provides excellent pressure redistribution properties and helps avoid injuries
- Removable Promust polyurethane heavy duty waterproof cover is machine washable to 90°C
- Suitable for bariatric width sleeping surfaces of 1200mm

## Prestige Tube mattress

	Code: 850	Code: 852	Code: 854	Code: 855
Size	Single	Super single	Double	Queen
Overall dimensions	W 900mm L 2000mm H 180mm	W 1100mm L 2000mm H 180mm	W 1400mm L 2000mm H 180mm	W 1500mm L 2000mm H 180mm
Product weight	17.1kg	21.2kg	26.7kg	28.6kg

### Mattress

- In a year, up to 200 litres of perspiration leaves the body. Due to the excellent air ventilation of the cold formed foam Rubex Tubes® system, the moisture is dispelled through and out of the mattress. This reduces the chance of microorganisms such as bacteria from developing
- Made from natural, non-toxic and environmentally friendly raw materials whose basic component is sunflower seed oil (not petroleum based)

### Cover

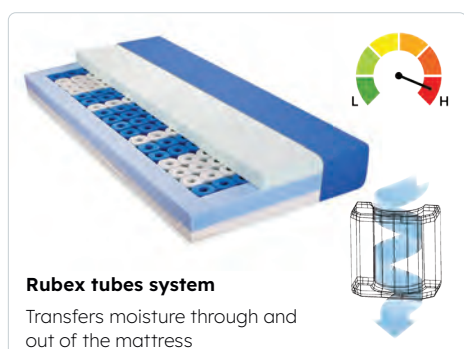

- Two-way stretch cover for reduced shear and friction
- Cover is waterproof, breathable, stain resistant fungistatic and flame retardant (Standard BS7175)

### Multi-zone

Symmetrically structured so the user always lies straight

## Airline Visco Tube mattress

⌚ **Top:** 70mm of ergo-elastic duo cell foam, developed exclusively for the Airline series, and adapts perfectly to your body shape even when cold

**Tube system:** Two different hardness of tubes provide different levels of support.

**Reinforced edge:** Helps to get in and out of bed

**Base:** Firm base has horizontal ridges for increased air flow

	Code: 1315	Code: 1316	Code: 1317	Code: 1318

Viscoflo mattress

Mattress can be used either way up

**Made to measure**  
Custom sizes available on request

**Softer:** High-quality Metzomed® viscoelastic foam, has a density of 60kgm³ and a compression hardness of 3.0hpa

**Firmer:** Rubex Nawaro trio cell foam has a mix of approx. 33% large, 33% medium, 33% small cells. The large cells are designed for pressure relief, the medium cells evenly distribute the load, and the small cells provide support

Code: 831	
Size	Single
Overall dimensions	W 900mm L 2000mm H 150mm
Product weight	18.5kg

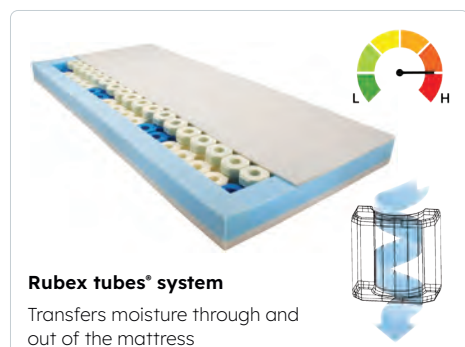

Mattress

- Rubex cell structure in the foam provides excellent air permeability and moisture transport helping to maintain a constant bed temperature
- The foam reacts only to body pressure providing constant support over a wide temperature range (-5°C to 40°C)
- Using wave cut technology, the different foam layers are fitted together without the use of adhesives which maximises air flow and reduces moisture trapping
- Made from natural, non-toxic and environmentally friendly raw materials whose basic component is sunflower seed oil (not petroleum based)

Cover

- Two-way stretch cover for reduced shear and friction
- Cover is waterproof, breathable, stain resistant, fungistatic and flame retardant (Standard BS7175)

## Tubex Medic mattress

⌚ **Top:** 10mm of duo cell foam

**Tube system:** Two different hardness of tubes provide different levels of support where needed. This Max user weightti-zone system also creates an ergonomically correct lying posture so the user always lie straight

**Reinforced edge:** Helps to get in and out of bed and to prevent roll-outs

**Base:** 30mm of duo cell foam for support

Code: 1310

Size	Single
Overall dimensions	W 900mm L 2000mm H 150mm
Product weight	16.8kg

### Mattress

- In a year, up to 200 litres of perspiration leaves the body. Due to the excellent air ventilation of the cold formed foam Rubex Tubes® system, the moisture is dispelled through and out of the mattress. This reduces the chance of microorganisms such as bacteria from developing
- Made from natural, non-toxic and environmentally friendly raw materials whose basic component is sunflower seed oil (not petroleum based)

### Cover

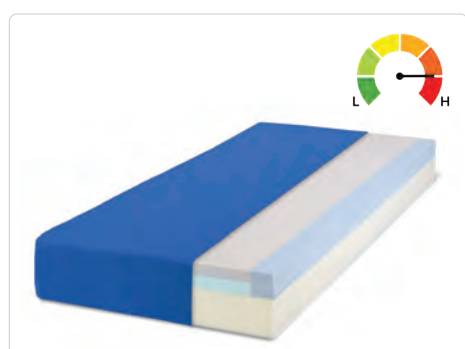

- Two-way stretch cover for reduced shear and friction
- Cover is waterproof, breathable, stain resistant, fungistatic, and flame retardant (Standard BS7175)

### Multi-zone

- ⌚ Symmetrically structured so the user always lies straight

## Elmundo Plus mattress

⌚ **Top:** Extra soft top layer for comfort

**Reinforced edge:** Helps to get in and out of bed and to prevent roll-outs

**Middle:** Soft duo cell viscoelastic for pressure redistribution

**Base:** Firm trio cell foam provides support and prevents bottoming out

### Mattress

- Four mattress zones work in unison to support high pressure areas like shoulders, hips and lower back
- Made from natural, non-toxic and environmentally friendly raw materials whose basic component is sunflower seed oil (not petroleum based)

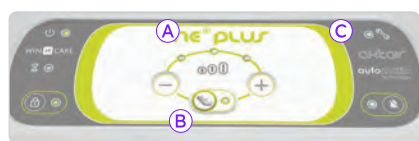

### Cover

- Two-way stretch cover for reduced shear and friction
- Cover is waterproof, breathable, stain resistant, fungistatic and flame retardant (Standard BS7175)

## Axtair One Plus® alternating air mattress

- (A) Sacrum area**  
12 air cells alternate in a 1-in-2 cycle
- (B) Head zone**  
Two static air cells fitted with a comfort pillow
- (C) Foot zone**  
Four independent heel relief air cells
- (D) Base**  
50mm polyether foam located in a separate compartment

- (A) Comfort adjustment**  
Changes the cell pressure to suit the user
- (B) Seating position adjustment**  
For use when the bed is profiled
- (C) Servicing reminder**  
Visual indication

### OPTIONS

#### Extra viscoelastic foam layer

Code: 5420

Code: 1950-1

Safe working load	min 30kg max 165kg
Overall dimensions	W 870mm L 1950mm H 170mm
Cells	18 cells at a height of cells 120mm
Foam layer	50mm high
Alternation	Type 1 in 2 Cycle 9 – 14 min
Flow	7 litres/min
Sound power	<35 dBA
Product weight	8kg

- Patented system of automatic and continuous calculation of inflation pressure according to patient's morphology – No manual input required
- Accessible CPR valve
- Washing machine compatible (up to 60°C)
- Comfort adjustment – changes the cell pressure to suit the user
- Three modes – dynamic, static low pressure, care
- 120mm high, removable and independent cells in 3 therapeutic zones: head, sacrum area and foot zone
- 50mm polyether base layer foam to prevent bottoming-out located in a separate compartment
- 4 independent heel relief air cells in the foot zone
- Seating position adjustment for use when the bed is profiled
- Cover is made of PROMUST CIC (Cross Infection Control). Polyamide mesh coated polyurethane/polycarbonate with added silver ions fitted with a non-slip base
- Transport plug with system for opening and sharing two air channels. This provides autonomy of 8 hours

## Axtair Automorpho® Plus alternating air mattress

- (A) Sacrum area**  
12 air cells alternate in a 1-in-2 cycle
- (B) Head zone**  
Two static air cells fitted with a comfort pillow
- (C) Foot zone**  
Four independent heel relief air cells
- (D) Base**  
50mm polyether foam located in a separate compartment

- (A) Comfort adjustment**  
Changes the air cell pressure to suit the user
- (B) Seating position adjustment**  
For use when the bed is profiled
- (C) Servicing reminder**  
Visual indication
- (D) Three therapeutic mode**  
Dynamic, static low pressure and care

### OPTIONS

Extra viscoelastic foam layer

Code: 5420

Code: 1967

Safe working load	min 30kg max 200kg
Size	Single
Overall dimensions	W 870mm L 1950mm H 205mm
Pump dimensions	W 250mm D 115mm H 225mm
Alternation	Type 1 in 2 Cycle 14 – 20 min
Air output	8 litres/min
Number of cells	21
Product weight	Mattress 8kg Pump 2.7kg

- Ideal for those who are in bed for more than 15 hours a day
- Designed for individuals at high to very high risk of pressure injuries
- Provides automatic and continuous calculation of inflation pressure of the alternating air mattress according to user's morphology and position, as well as the angle of the backrest
- 1 in 2 alternating cell pressure over a complete cycle from 14 to 20 minutes
- 3 modes: dynamic, static low pressure and care
- Non-slip base
- Welded seams
- Information button for technical data
- Audible and visual alarms
- Cover is made of PROMUST CIC (Cross Infection Control). Polyamide mesh coated polyurethane/ polycarbonate with added silver ions fitted with a non-slip base
- CPC/DATA connector automatically closes on the air circuits when disconnected

## Aeria® 8 Pro alternating air mattress

Code: 2160

Safe working load	220kg
Size	Single
Overall dimensions	W 880mm L 2000mm H 220mm
Alternation	Type 1 in 3 Cycle 10 – 12 min
Air output	8 litres/minute
Number of cells	21
Pressure steps	<50kg, 70kg, 100kg, 125kg, 150+kg
Product weight	Mattress 8.5kg Pump 3.5kg

**(A) Head zone** Three static air cells fitted with a comfort pillow

**(B) 1-in-3 alternation** Allows more body surface to be supported at any one time for optimum healing

**(C) Cell in cell design** An inner static cell always remains inflated to prevent bottoming out and for when mattress is inclined or in the event of a power failure

**(A) Two modes**  
Dynamic and static. Static mode is used for moving, handling and transfers. It reverts back to dynamic mode automatically after 30 mins for user safety

**(B) Visual and audible alarms**  
Initial failure, low pressure, alternation failure, pressure too high and power failure alarm (plus mute button)

**(C) Pressure adjustment controls**  
Firmness of the cells can be adjusted in five pressure steps to suit the weight and comfort needs of the user

- Mattress replacement system for standard or profiling beds
- Bi-elastic protection cover with PU coating is vapour permeable and waterproof. Fully elasticised for a firm fit
- 360° zipper with welded seams for antibacterial protection
- Pro-clean base is service friendly, easy to clean, and is non-slip
- Made from TPU coated nylon, cells are connected with “smart snaps” and can be independently removed for cleaning or repairs
- Easy to operate digital touch panel with alarm LEDs
- Rapid release CPR tag for emergency deflation
- IEC power cord receptacle helps to prevent damage
- Soft piping to avoid kinks or interference to air flow
- Static transport function and integrated carrying handles
- Comes with carry bag for transport or storage

## Repose® Mattress overlay

### PARTS

#### ⊖ Repose Mattress cover - Single

- Size: Single

Code: 66776

Code: 66750

Code: 66751

Bed size	Single	Double
Overall dimensions	W 770mm L 1780mm	W 1350mm L 1780mm

- Low Air technology distributes weight evenly and doesn't lose its shape
- Includes unique and easy-to-use pump ensures it is quickly inflated to the correct pressure
- Designed to relieve pressure on soft tissue areas and provide comfort

## Repose® Mattress overlay and cushion set

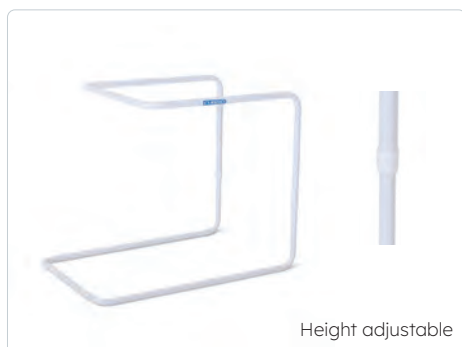

Code: 66775

Mattress dimensions	W 770mm L 1780mm
Cushion dimensions	W 450mm L 450mm

- Helps distribute pressure evenly and reduces impact of pressure, friction and shear
- Low air technology distributes weight evenly and doesn't lose its shape
- Easy to clean and will deflate down to a compact size
- Designed to relieve pressure on soft tissue areas and provide comfort
- Repose can be cleaned and reused
- For at-risk to very high-risk individuals
- Can be used with other dynamic or static support surfaces

## Adjustable bed cradle

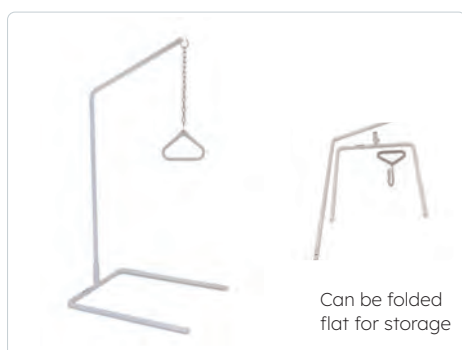

Code: 125

Overall dimensions	W 480mm L 500mm H min 530mm max 680mm
--------------------	---------------------------------------------

- Height adjustable to allow for thicker mattresses or to provide greater clearance
- Easily adjusts to desired height
- Made from lightweight aluminium
- Simple to install and remove

## Overbed pole

Code: 512

Safe working load	80kg
Base dimensions	W 830mm L 915mm
Height	1820mm
Handle height	min 530mm max 680mm

- Made of chrome plated tubular steel with chain strap and steel handle
- The easy to adjust chain gives a variation of approximately 600mm

## Repose® Knee flex - M

Code: 66760

Overall dimensions	L 500mm W 700mm H 90mm
<ul style="list-style-type: none"> <li>For clients identified as being at risk of developing a DVT</li> <li>Protecting patients at all levels of risk of developing all stages of pressure ulcers</li> <li>Treatment of pressure ulcers when used as part of a package of care</li> <li>Repose Smart valve technology for optimum inflation levels</li> <li>Deflatable for convenient storage and transport</li> </ul>	

## Repose® Wedge

## Alova® foot splint

Code: 1983

Overall dimensions	W 220mm L 510mm H 250mm
--------------------	-------------------------------

- Provides complete heel pressure relief
- Lightweight and compact
- Slight inclination promotes venous return
- Orthopaedic alignment of lower limbs
- Alova viscoelastic moulded foam
- Non-slip Promust silicone and PU/PVC

## Heel protector

Code: 431

Overall dimensions	W 250mm L 360mm H 240mm
--------------------	-------------------------------

- Suitable for treatment of diabetic foot ulcers
- Bi-elastic cover minimises shear forces
- Mesh fabric for maximum ventilation
- Easy clean with disinfectant
- Reduces drop foot prophylaxis
- One size fits all

## Perimeter surround

Code: 1570-1

Bed size	Single
Overall dimensions	W 900mm L 2000mm
Perimeter height	150mm

- Wedge-shaped foam sections act as a gentle reminder to those lying in bed of the location of the mattress edges
- 380mm openings in the mid-section for easy entry and exit
- Quick-release buckles easily secure the surround to the bed
- Water resistant cover. Wipe-clean denier nylon with urethane coating
- Zippered foam compartments to facilitate washing of cover
- Meets CA #117, Section 3 Flame Retardant Standards

Code: 2510

### RAZ urine deflector

## AquaSoft® custom made cushioning for any commode

### Made to measure

AquaSoft seats are crafted by our specialist upholstery team to perfectly suit your client, offering superior pressure relief and comfort. Call us to discuss your client's specific requirements.

- Provides superior pressure relief for high risk individuals
- No seams or sharp edges to reduce the risk of skin tears
- Anti-mould and mildew resistant
- Medical polymeric polyester fabric with superior infection control
- Urine acid stain resistant
- Oil resistant and anti static

### Upgrades AquaSoft platinum

AquaSoft platinum foam upgrade

Superior memory foam provides exceptional pressure relief for high risk individuals and adapts to support an individual's body shape. Tempur's unique viscoelastic properties mean the seat becomes softer in warmer areas where the body is making the most contact, and firmer in cooler areas where less body contact is made.

4-way stretch vinyl covers

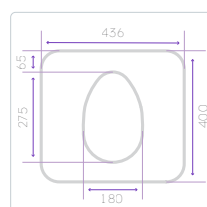

A practical and durable seat cover solution, the vinyl fabric provides superior comfort and supports skin integrity by helping to reduce friction and shear. Available as a cover for all handmade seats.

Width between arms	445mm	445mm
Armrest height	250mm	250mm
Back height	min 555mm max 625mm	min 555mm max 625mm
Tilt angle	Seat -5° -> 25° Backrest 90° -> 120°	Seat -5° -> 25° Backrest 90° -> 120°
Clearance height	470mm	520mm
Product weight	28kg	31kg

- Can be used over a toilet, freestanding with a pan, as a bathing chair in the shower
- The seat is ergonomically correct, meaning it can be tilted and the back reclined without any disadvantage for the user. During recline, the anatomical pivot point at the axis of the hips is maintained to provide the user more comfort when seated
- Height adjustment allows you to adjust the chair into the correct position and reduce the time spent in a twisted or awkward position
- Suitable for teenagers. Change the back height and add a couple of simple accessories to change seat width and seat depth – it is easy to make the Heron fit perfectly
- Pressure mapping has been used in the design to minimise pressure and improve comfort for users even when the seat is used for extended periods of time
- Four locking casters
- Available in a hydraulically powered height adjustment and tilt function option (Code: 0500-880505-11)

## Heron accessories

Code: 0500-880508-01

### Heron shoulder supports

Provides additional support for the shoulders with an easy to clean padded surface for improved comfort.

Code: 0500-880508-06

### Heron seat depth reduction kit

Reduces the seat depth by 50mm.

Code: 0500-83016-162

### Heron swing-away laterals

For additional support and positioning.

Code: 0500-83018-162

### Heron curved swing-away laterals

For additional support and positioning.

Code: 0500-880508-09

### Heron fixed laterals

For additional support and positioning.

Code: 0500-880508-03

### Heron swing-away armrest supports

Provides arm support. They can swing-away during transfers.

Code: 0500-880508-04

### Heron tray

A tray may be used to support a more natural toileting position for a user with reduced upper trunk or head control.

Code: 0500-880508-02

### Heron hip supports

Includes a selection of spacer blocks and bolts making it possible to provide hip support and reduce the seat width to a 350–490mm range in 10mm increments.

## Heron accessories

Code: 0500-109107-1

**Heron hip guide spacer block**

An add-on to the existing hip support. An extra kit with two 10mm and two 20mm blocks plus corresponding bolts. These can be added to make the seat as narrow as 290mm.

Code: 0500-880130

**Heron commode pan**

A commode pan helps to create a flexible and convenient toileting solution.

Code: 0500-880130-L

**Heron commode pan lid**

The lid is used to cover the contents of the commode pan. It retains odours and decreases the risk of spillage.

Code: 0500-880508-05

**Heron high splashguard**

Ideal for maintaining alignment of the legs or managing adduction and avoid splashing outside the toilet bowl or commode pan.

Code: 0500-880508-07

**Heron low splashguard**

Provides easy access to the seat for users or situation where a high splash guard is not warranted.

Code: 0500-880506-01

**Heron right angle footplates**

- For leg positioning
- 390 - 550mm

Code: 0500-880506-03

**Heron right angle footplates**

- For leg positioning
- 300 - 380mm

Code: 0500-880506-02

**Heron open angle footplates**

- For leg positioning
- 360 - 530mm

Code: 0500-880506-12

**Heron footplate hanger padding**

Knee protection for users sitting in abduction. Used for foot supports.

Code: 0500-880509-01

**Heron calf support strap**

Support for the lower legs.

Code: 0500-880509-02

**Heron heel stop straps**

For correct positioning of the feet.

## HydroGo-E electric shower trolley

Code: 67770

Safe working load	200kg
Overall dimensions	W 790mm L 2030mm H 455 - 591mm
Mattress dimensions	W 690mm L 1950mm
Product weight	107kg

- Height adjustable via foot pedals accessible on both sides of the trolley
- Foldable side rails providing extra security during showering and transporting
- 4 x large 125mm noiseless castors with brakes
- One anti static castor to eliminate static electricity

## Mobile shower trolley

Code: 3705

Safe working load	245kg (including water)
External dimensions	W 900mm L 2020mm
Internal dimensions top of rail	W 800mm L 1880mm
Lying surface height	min 550mm max 950mm
Trendelenburg angle	12°
Discharge hose length	1.5m

The features of this trolley are the same as the 3690 and 3700 Viking mobile shower trolleys with:

- 4x 150mm swivel castors: 3x braking, 1x track-lock control
- Larger dimensions
- Higher safe working load
- Electric height adjustment

## Mobilio® shower and change table

Code:  
0800-40-31406

Code:

Max. toilet seat rise on 500mm toilet	930mm
Armrest height on 400mm toilet	690mm
Armrest height on 460mm toilet	750mm
Armrest height on 500mm toilet	790mm

- Raising the standard in bathroom safety and independence
- This version is for a vertical stand up motion, ideal for users with none or very limited flexion in the hips and/or knees
- The vertical toilet lift offers the perfect support to achieve the right natural stand up motion
- Standard with fold-away arm supports allowing constant support during the sitting down and stand up motion

## Lift Seat Home powered / plus powered toilet lift

Code: 3770

Code: 3771

Type	Powered	Plus powered
Safe working load	145kg	205kg
Overall dimensions	W 510mm L 674mm	W 585mm L 674mm

- The Lift Seat Home lowers individuals onto the toilet and then raises them back to their feet
- The slow and smooth action power utilises the "sit-to-stand" motion
- It allows users to toilet independently or with reduced care, while at the same time minimising the risk of falls or getting stuck

## Lift Seat Vertica plus powered toilet lift

Code: 3773

Safe working load	205kg
Overall dimensions	W 610mm L 601mm

- Lowers and raises with assistance of power
- Works over any toilet
- The compact design will fit most bathroom spaces
- Safely use the toilet independently or with reduced care
- Oval shaped opening allowing for easy toileting
- Quick and easy to set up
- No installation, ground fixing or assembly required

## Viking® bedside commode

Code: 565

Max user weight	120kg
Overall dimensions	W 520mm D 570mm
Seat height	min 470mm max 620mm
Seat size	W 440mm D 440mm
Width between arms	460mm
Product weight	8kg

- Removable seat covers toilet seat when not in use
- Durable padded vinyl upholstery
- Removable back
- Non-slip rubber tips
- Made of powder-coated steel for rust protection

## Viking® deluxe bedside commode

Code: 571S

Max user weight	160kg
Overall dimensions	W 610mm D 540mm
Seat height	min 450mm max 600mm
Seat size	W 450mm D 440mm
Width between arms	460mm
Product weight	12.7kg

- Can be used as a chair or bedside commode
- Simply fold back the seat to use the commode
- Height adjustable
- Curved padded back, padded seat and arms
- Removable bowl with lid and carry handle
- Three-sided skirt to conceal the bowl
- Made with powder-coated steel for rust protection

## Viking® maxi deluxe bedside commode

Code: 571M550

Code: 571M650

Max user weight	175kg	225kg
Overall dimensions	W 610mm D 540mm	W 690mm D 540mm
Seat height	min 450mm max 600mm	min 450mm max 610mm
Seat size	W 540mm D 440mm	W 640mm D 440mm
Width between arms	550mm	650mm
Product weight	15.3kg	18.3kg

- Multi-purpose solution that can be used as a chair or bedside commode
- Height adjustable
- Curved padded back, padded seat and arms
- Seat folds back to use the commode
- Removable bowl with lid and carry handle
- Constructed of powder-coated steel for rust protection

## Roma® looped support rail

Code: 235

Length	800mm
Height	200mm
Wall bracket	W 100mm D 300mm

- Looped bar provides more strength and stability
- Hinges allow support to neatly fold upright against wall when not in use
- Durable stainless steel frame with anti-corrosive finishing
- Non-slip surface with infection control
- Fixing screws not included

**WARNING!** Rails must be fitted by a qualified person and should only be fixed to walls of sound construction. Careful consideration should be given when choosing fixing applications.

## Roma® support rail

	Code: 281-300	Code: 281-450	Code: 281-600	Code: 281-700
Length	300mm	450mm	600mm	700mm
Distance from wall	45mm	45mm	45mm	45mm
Tube diameter	32mm	32mm	32mm	32mm
	Code: 281-800	Code: 281-900	Code: 281-1000	Code: 281-1200
Length	800mm	900mm	1000mm	1200mm
Distance from wall	45mm	45mm	45mm	45mm
Tube diameter	32mm	32mm	32mm	32mm

- Can be installed to suit a user's left or right hand
- Non-slip surface for maximum safety
- The stainless steel tubing can support a downward pull of up to 113kg

**WARNING!** Rails must be fitted by a qualified person and should only be fixed to walls of sound construction. Careful consideration should be given when choosing fixing applications.

## Roma® angled support rail

281-600X600X90

281-305X305X45

	Code: 281-305X305X45	Code: 281-600X600X90	Code: 281-750X750X90
Length	305mm	600mm	750mm
Width	305mm	600mm	750mm
Distance from wall	45mm	45mm	45mm
Angle	45°	90°	90°
Tube diameter	32mm	32mm	32mm

- Can be installed to suit a user's left or right hand
- Non-slip surface for maximum safety
- The stainless steel tubing can support a downward pull of up to 113kg

**WARNING!** Rails must be fitted by a qualified person and should only be fixed to walls of sound construction. Careful consideration should be given when choosing fixing applications.

## Roma® T-bar support rail

Code: 281-TBR

Height	1100mm
Width	600mm
Depth	76mm
Rail diameter	32mm

- Combines the support of a safety rail with a sliding shower head holder
- Mounting hardware is concealed with a fitted cover
- Stainless steel with anti-slip surface

**WARNING!** Rails must be fitted by a qualified person and should only be fixed to walls of sound construction. Careful consideration should be given when choosing fixing applications.

## Roma® bath grab bar

Code: 250

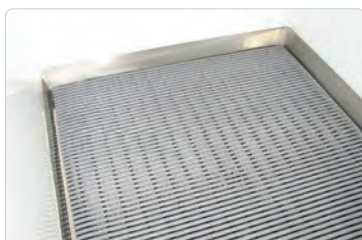

Max user weight	275kg
Width	150mm
Height	380mm
Clamp width	min 75mm max 180mm

- Powder-coated steel with rubber contact points
- Easy to install and remove

**WARNING!** Suitable for downward pressure application only.

## Hull® shower matting

Code: 224-1

Overall dimensions	W 910mm L 1000mm
--------------------	---------------------

- Length can be cut to suit individual requirements
- Non-slip, commercial grade tube matting
- Comfortable underfoot
- Mould-resistant and easy to clean

## Seating

Cushions	94
Rehab chairs	95
Pressure reduction specialist seating	98
Pressure care cushions	103

## Alova® contoured cushion

	Code: 1383	Code: 1384
Safe working load	30 – 120kg	30 – 135kg
Overall dimensions	W 450mm D 440mm H 60 - 90mm	W 500mm D 440mm H 60 - 90mm
Foam density	≥75kg/m <sup>3</sup>	≥75kg/m <sup>3</sup>

- Alova viscoelastic material and anatomic contouring distributes pressure for high-risk users
- Tilted seating position reduces the risk of slipping forward
- Coccyx cut-out to decrease pressure on ischiatic regions
- Promust PU (polyurethane coated jersey) cover has thermoregulation properties
- Integral cover with non-slip base, fitted with carry handle

## Cushion Air® cell cushion

## MultiAdjust® chair

### ACCESSORIES

#### MultiAdjust lateral supports

- L-shaped pads to provide simple lateral support

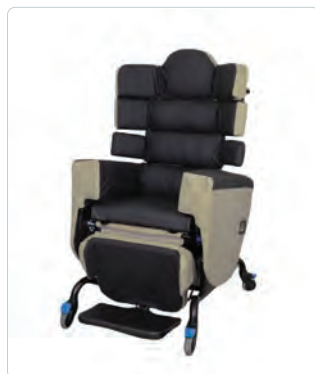

Code: 66927

Code: 66915

Safe working load	160kg
Seat width	400 - 550mm
Seat height	540mm
Seat depth	380 - 530mm
Armrest height	200 - 250mm

- Tilt-in-space: Redistributes body weight while maintaining hip and knee angle. Allows carers to alter the client's position easily to redistribute pressure and combat fatigue without compromising their postural support
- Height adjustable, flip up and angle adjustable footplate
- Integral seat depth and width adjustment

## SmartSeat Pro II chair

Code: 66917

Safe working load	160kg
Seat width	350 - 550mm
Seat depth	360 - 570mm
Seat lateral height	250 - 500mm
Product weight	95kg

- Soft removable padding at all sections, providing support exactly where it's needed
- Individual components can be quickly and easily adjusted tool-free
- The three lower sections can be altered in height, depth, angle, offset and rotation
- The top articulating head sections also allows for specific profiling of the back of the chair to accommodate more complex head and neck positions
- The lower lumbar and sacral sections can be further configured to meet pelvic stability needs
- Tilt-in-space with built in inclinometer
- Seat-to-back angle remains the same - the whole system tilts posteriorly
- The seat-to-back angle adjusts to open up the hip angle, reducing abdominal pressure
- Visual back angle indicator displaying the degree of the angle
- Adjustable laterals and footplate
- Adaptable trunk control with independent height and width adjustment
- Channelled elevating leg rests provide comfort and alignment to lower limbs

## Pinnacle recliner

Code: 40000

Safe working load	120kg
Overall dimensions	W 840mm D 980mm H 1050mm
Seat dimensions	W 480mm D 530mm H 480mm
Back height	1050mm
Product weight	45.8kg

- Convenient handle on the outside arm enables a user to raise the legrest
- Smooth, graceful rocking motion which can also be locked
- Back and legrest work together or independently
- Elevates the feet in any seating position not just in recline
- Full recline position stimulates blood circulation
- Innovative technology surrounds each fibre, repelling spills before they turn into stains

## Repose cushion

### PART

#### Repose Cushion cover

- Cover to suit Repose cushion

Code: 66779

Code: 66753

Safe working load	139kg
Overall dimensions	W 450mm L 450mm

- Lightweight for easier transport
- Low Air technology distributes weight evenly and doesn't lose its shape
- Designed to relieve pressure on soft tissue areas and provide comfort

## Repose Care-Sit cushion

Code: 66754

Code: 66755

Safe working load	139kg	139kg
Overall dimensions	W 450mm L 950mm	W 500mm L 950mm

- Secure strap system allows for straightforward retrofit or new chair use
- Provides pressure redistribution across the whole surface for the at-risk areas of the body: sacrum, buttocks, scapulae and vertebrae
- Cushion fitted with larger cells on outside edges
- Durable outer cover with waterproof zip

## Repose Contur cushion set with 1 cover

Code: 66769

Safe working load	139kg
Overall dimensions	W 490mm L 1715mm H 50mm

- Provides pressure redistribution across the whole surface for the at-risk areas of the body: sacrum, buttocks, scapulae, vertebrae, shoulders, back of head
- Cost effective method to provide pressure area care to a recliner and/or care chair
- Adjustable straps for a secure fit on a range of chair sizes
- Features Repose single air cell and smart valve technologies

## Stabilo Base cushion

- Moulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Provides individualised support to increase comfort and stability
- Reduces risk of pressure injuries
- Deep side supports
- Wide headrest

Stabilo Comfortable Plus Duo Hilo cushion

	Code: 60176	Code: 60177	Code: 60178	Code: 60179
Size	Small A 300mm B 800mm C 580mm D 280mm	Medium A 390mm B 950mm C 650mm D 280mm	Large A 400mm B 1150mm C 750mm D 350mm	Extra Large A 450mm B 1200mm C 850mm D 350mm

- Moulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability
- Deep side supports
- Wide headrest
- Keeps the legs in an abducted position

Stabilo Beanseat cushion

	Code: 60193	Code: 60194	Code: 60195
Size	Medium A 520mm B 400mm	Large A 560mm B 500mm	Extra large A 700mm B 500mm

- Moulded to perfectly fit the body
- Encourages deep sitting or semi reclined positions
- Provides stability in any position
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability

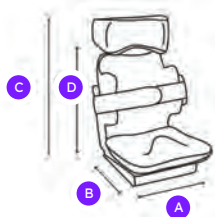

Stabilo Beanseat cushion cover

	Code: 60220	Code: 60221
Size	Medium	Large

- Cover to suit Beanseat cushion

## Stabilo Multiseat

	Code: 60224	Code: 60225
Size	Medium A 380mm B 350mm C 530 - 620mm D 490 - 580mm	Large A 420mm B 400mm C 730 - 820mm D 690 - 780mm

- Easily fasten to a wheelchair or rehabilitation chair
- Moulded to perfectly fit the body
- This cushion can be moulded and remoulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability
- Deep side supports
- Wide headrest

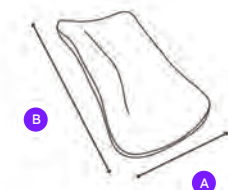

## Stabilo Headrest cushion

	Code: 60183	Code: 60184
Size	Medium A 150mm B 300mm C 140mm	Large A 200mm B 350mm C 170mm

- Moulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability
- Suitable for most wheelchairs and rehabilitation equipment

## Stabilo Armrest cushion

	Code: 60186	Code: 60187
Size	Medium A 200mm B 300mm	Large A 250mm B 450mm

- Moulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability
- Suitable for most wheelchairs and rehabilitation equipment

Cushions	112

## Askle Santé positioning aids

- Designed for superior in-bed and seated positioning support and pressure relief
- Microbeads in self-extinguishable PES, with Vacuum Touch™ that supports stable repartition of microbeads within the cover
- Cross Infection Control (CIC) cover is resistant to odour, bacteria, fungi and dust mites, while Silver (Ag+) ions limit microorganism development. Certified Oeko-Tex class 1 for direct contact with injured skin
- PU-Polycarbonate coating on nylon mesh for greater durability

### Askle Santé positioning aid starter kit

The starter kit includes core positioning aids that can be used in a wide range of applications to achieve full-body alignment and provide maximum comfort.

#### Includes:

- 1x Universal positioning cushion (small)
- 1x Cylindrical positioning cushion
- 2x Foot positioning cushion
- 2x Hand positioning cushion
- 2x Circular positioning cushion

## Askle Santé positioning aids

### Helps to prevent pressure ulcers in trochanter

Pressure ulcers in the trochanter area are infrequent yet dangerous. They occur mainly in clients strictly confined to bed in a supine position.

#### Solution: Lateral positioning cushion at 30°

- Two overall dimensions available to fit different user sizes
- Integrated pillow for user comfort

### Helps to prevent pressure ulcers in elbow and heel

Pressure ulcers in heel areas are common, especially in bedridden clients. They can also occur in elbow areas. Experts recommend positioning cushions for hands and feet.

#### Solution: Hand and foot positioning cushions

- Slight incline to encourage venous return
- Non-traumatic edges
- Relieves pressure on Achilles tendon and malleolus
- Pressure relief in elbows

### Helps to prevent pressure ulcers in knees and malleolus

Pressure ulcers in knees and malleolus areas are very frequent in clients with muscle and tendon retractions of lower limbs. Experts recommend abduction of lower limbs to relieve pressure in knees, condyles, and malleolus areas as well as in sacrum, ischions and heels.

#### Solution: Cylindrical and circular positioning cushions

- Lower limbs in abduction
- Relief of pressure applied on condyles and internal malleolus
- No contact between knees

### Helps to prevent incorrect postures of hips and knees

#### Solution: Universal cushions

- Suitable for all care situations (to be used alone or with other positioning cushions)
- Can be used as a pillow in keeping with prevention of cross-infection risks
- Facilitate installation or turning over during care

## Helps to prevent pressure ulcers in sacrum, ischium and heels

### Helps to prevent incorrect postures of hips and knees

#### Solution: Cylindrical positioning cushion under knees

- Reduces lumbar lordosis
- Relieves facet joint pains
- Stable position of hip abduction

#### Solution: Hip abduction positioning cushion

- Recommended after hip replacement surgery
- Limits the risk of dislocation following total hip replacement when the user turns over

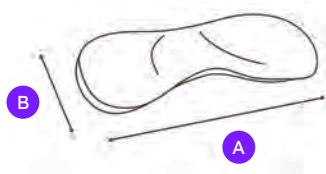

## Immedia positioning wedge

	Code: 66491	Code: 66492
Size	Small	Large
Safe working load	200kg	200kg
Overall dimensions	W 300mm L 530mm H 200mm	W 300mm L 800mm H 200mm

- Supports the user on the side after turning, when resting or when performing hygiene or wound care, saving the caregiver from maintaining a static holding position
- It can be used alone or in combination with other positioning aids

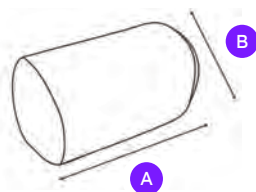

## Stabilo Banana cushion

	Code: 60197	Code: 60198	Code: 60199
Size	Small	Medium	Large
Overall dimensions	A 500mm B 250mm	A 550mm B 350mm	A 800mm B 350mm

- Moulded to perfectly fit the body
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability

## Stabilo Roll cushion

	Code: 60201	Code: 60202	Code: 60203
Size	Small	Medium	Medium plus
Overall dimensions	A 500mm B 250mm	A 500mm B 350mm	A 800mm B 180mm

	Code: 60204	Code: 60205
Size	Large	Extra large
Overall dimensions	A 800mm B 250mm	A 800mm B 350mm

- Moulded to perfectly fit the body
- Provides stability in any position
- Provides abduction of limbs
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability

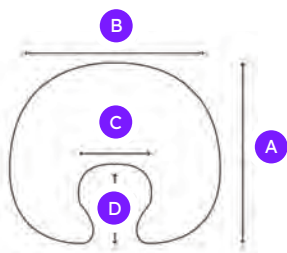

## Stabilo Wedge cushion

	Code: 60209	Code: 60210
Size	Medium	Large
Overall dimensions	A 400mm B 400mm C 250mm	A 450mm B 600mm C 400mm

- Supports positioning during therapy and rehabilitation in prone lying
- Versatility to use as a pillow
- Provides support for people with respiratory conditions
- Moulded to perfectly fit the body
- Provides stability in any position
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability

## Stabilo Bath bagel

Code: 60213

Code: 60214

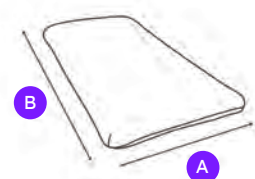

Code: 60215

Code: 60216

Size	Small	Medium	Medium plus	Large
Overall dimensions	A 300mm	A 350mm	A 450mm	A 450mm
	B 350mm	B 370mm	B 550mm	B 600mm
	C 100mm	C 120mm	C 120mm	C 170mm
	D 120mm	D 170mm	D 170mm	D 220mm

- Provides stability of the head during bathing, preventing immersion
- No need for the carer to support the client's head while bathing
- Fastening straps positioned under the armpits ensuring comfort and safety
- Quick drying

## Stabilo Grande cushion

Code: 60189

Code: 60190

Code: 60191

Size	Medium	Medium plus	Large
Overall dimensions	A 700mm	A 900mm	A 1300mm
	B 1600mm	B 2000mm	B 2000mm

- Moulded to perfectly fit the body
- Provides stability in any position
- Easily shaped, formed, and reformed
- Reduces the risk of pressure injuries
- Provides individualised support to increase comfort and stability
- Suitable for placement on a regular sofa or armchair

## Stabilo electric pump

Code: 60290

- The vacuum electric pump makes it easier to shape large Stabilo forms

## Notes

## Lifting, transferring and standing equipment

Overhead lifting solutions	118
Mobile lifting solutions	124
Transfer aids	132
Slings	133
Moving and handling aids	142

## Efficient and effective overhead lifting solutions

Our in-built overhead lifting solutions are the most effective and safe way to lift and move an individual. Mounting all the lifting equipment at ceiling height frees up floor space and makes it much easier to get around. Everything you need to carry out a lift or a move is always close to hand.

Our solutions are designed for heavy lifting with capacities of 175 – 500kg. They are effortless to operate and provide exceptional freedom of movement. In addition to reducing the strain on carers and minimising the risk of moving and handling injuries, these solutions make it possible for a single carer to complete a range of safe and secure transfers without assistance.

### Benefits at a glance

#### Speed

More time for care

#### Efficiency

Always ready for use

#### Comfort

Runs effortlessly, is quiet and is gentle

#### Safety

Simple, intuitive operation and emergency functions

#### Ergonomic

Supports good posture and provides space and freedom to move

### Key design considerations

#### Needs assessment

- How many lifts?
- Moving and handling procedures

#### Room design

- What rail system would work best?
- How will it look?
- Architectural considerations

#### Equipment solutions

- What equipment and accessories will work best with your system?

#### Training and support

- Best practice training
- Ongoing servicing

### Let's work together

We will work with you to define your needs and deliver a complete solution that will help your client to achieve the specific outcomes they're looking for. A robust overhead lifting design is an integral part of a complete range of lifting equipment that includes rails, lifting modules, slings and lifting accessories – all designed to fit together.

Our equipment can be combined in many different ways, making it possible to accommodate just about any requirement in any building. Whether it's being retrofitted in the client's home or included in plans for a new build, our solutions can be configured to comply with the specific needs of your client and environment.

## Luna fixed lifter

	Code: 10001	Code: 10003
Safe working load	200kg	275kg
Overall dimensions	W 320mm H 130mm	W 320mm H 130mm
Lifting height	1950mm	1950mm
Warranty	5 years	5 years

- Fixed lifter also available in a portable version
- World-class leading design and functionality
- IPx4 protection class. Tolerates splashing
- Clean and simple state-of-the-art-design
- Easy charging via hand control
- Patented Ergolet hooks on spreader bar, simple and safe to use, with a range to suit standard, paediatric and bariatric needs

## Luna portable lifter

	Code: 10000	Code: 10002
Safe working load	200kg	275kg

- Easy height adjustment with gas spring
- Utilises full functionality of the Luna portable lifting unit
- Telescopic width adjustment
- Mounted on compact, wheeled base
- Easy assembly and adjustment

## Molift Quattro gantry

Code: 66547

Safe working load	300kg
Overall dimensions	W 4160mm D 4160mm H 2330mm
Internal dimensions	W 4000mm D 4000mm H 2190mm
Product weight	131.55kg
Material	Steel

- Molift Quattro is a gantry system which has supreme stability and provides access in all lifting situations
- Designed to be installed in a short time by 1 or (preferably) 2 persons
- The hoist motor can easily be charged through the hand control or through the in-rail charging option
- The traverse has a lightweight aluminum frame and four steel posts that provides excellent stability
- Operate together with the Molift Air or Molift Nomad hoist motor and a sling (ordered separately)
- Customisable sizing to suit the room

## Molift duo 2000

	Code: 66541	Code: 66542
Safe working load	300kg	300kg
Overall dimensions	W 2150mm D 1200mm H 2250mm	W 2650mm D 1200mm H 2250mm
Internal dimensions	W 2000 mm H 2400mm	W 2500 mm H 2400mm
Product weight	38kg	40kg
	Code: 66543	Code: 66544
Safe working load	300kg	205kg
Overall dimensions	W 3150mm D 1200mm H 2250mm	W 3650mm D 1200mm H 2250mm
Internal dimensions	W 3000 mm H 2400mm	W 3500 mm H 2400mm
Product weight	42kg	44.3kg

- Due to the lightweight system, it is easy to install the gantry and move it to a new location
- The gantry system has supreme stability and a functional design
- Adjustable height in 4 steps from 2250mm to 2550mm
- Molift hoist motor can easily be charged through the hand control or optionally through in-rail charging

## Molift accessories

**Molift Air 300/205  
Propulsion overhead lifter**

Code: 66829

Code: 66830

H 130mm W 550mm

**Molift Air 4-point  
spreader bar**

Code: 66536

- Safe working load: 350kg
- Overall dimensions:  
W 300mm L 350mm H 210mm

Code: 66537

- Safe working load: 350kg
- Overall dimensions:  
W 300mm L 450mm H 240mm

Code: 66538

- Safe working load: 350kg
- Overall dimensions:  
W 300mm L 550mm H 240mm

## Molift Nomad 205

Code: 66529

Safe working load	205kg
Lifting speed:	23mm/s at 75kg
Hoisting interval	2000mm
Overall dimensions	W 200mm L 522mm H 330mm
Unit weight	6.8kg
Number of lifts per charge	80 hoists at 75kg
Charging time	4 hours

- Unique curved design and the integrated 4-point sling bar for a comfortable and spacious lift
- Portable and easy to move, weighing only 6.8kg with integrated carry handles for easy handling
- Can be used in combination with a specially designed trolley to climb from one rail system to another without a transition rail for easy transfer from room to room
- Connects and disconnects easily without any tools by a single caregiver
- Provides flexibility for day-to-day operations, as well as for temporary needs
- Accessible and easy-to-use controls on handset or the integrated display in the front of the unit
- Environmentally friendly NiMH-battery
- Equipped with audio and visual battery indicators

## Molift Air 200/300 overhead lifter

66532

66828

Code: 66532

Code: 66828

Safe working load	300kg	300kg
Overall dimensions	W 3650mm D 1200mm H 2250mm	W 3650mm D 1200mm H 2250mm
Internal dimensions	W 3500mm H 2400mm	W 3500mm H 2400mm
Product weight	44.3kg	44.3kg

- Combined with Molift Rail System and Molift slings, Molift Air solves most day-to-day hoisting situations in health care and other moving and handling environments
- Can be electrically propelled along the track using the handset
- Easy to handle during installation and servicing, due to a very low weight and the clever quick release function. With a simple grip, the motor is disconnected from its trolley and removed
- Works very quietly and has a soft start and stop operation

## Stellar 170 mobile hoist

Code: 6420-2

Safe working load	170kg
Lifting method	Electric
Lift from floor	No
Lifting height	min 800mm max 1600mm
Knee support adjustment	min 390mm max 500mm
Turning radius	1060mm
Base spread method	Electric
Emergency lowering	Manual
Overall dimensions	L 1093mm H 1138mm
Base dimensions	L 952mm H 120mm
Width inside base	min 540mm max 830mm
Width outside base	min 665mm max 920mm
Foldable	No
Product weight	51.6kg

- Compact sit-to-stand hoist with small turning radius
- Electrical leg adjustment
- Height and angle adjustable knee supports
- The lifting arm and yoke are designed to imitate the natural pattern of movement for raising and lowering, making it feel more normal for the user
- Horizontal handles on the side of the yoke allow the user to help pull themselves up
- Detachable footplate
- Latest state-of-the-art electronics
- 2x 75mm castors at front, and 2x 100mm braking castors at rear

## Solar 185 mobile hoist

Code: 6430-2

Safe working load	185kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 680mm max 1980mm
Turning radius	1430mm
Base spread method	Electric
Emergency lowering	Manual
Overall dimensions	L 1322mm H 1289mm
Base dimensions	L 1175mm H 118mm
Width inside base	min 550mm max 920mm
Width outside base	min 675mm max 1035mm
Foldable	No
Product weight	45.2kg

- Good travel range allowing for floor lifts
- Class leading low-high lift range from 440mm to 1790mm
- Electrical leg adjustment
- The patented spreader bar hooks to ensure simple and safe use
- Easy to manoeuvre, with ergonomic hand grip design and smooth rolling wheels
- Compact and stable base can accommodate narrow 700mm doors
- Curved base gives a wide spread to access large chairs
- Smooth surface making it easier to clean and for infection control
- Linak hand control

### ACCESSORIES

#### Weigh scale

Code: 6398

For our comprehensive range of slings available

See pages 133 - 141

## Presence mobile hoist

### ACCESSORIES

6-point spreader bar with uniscale to suit Presence  
Class III certified providing highly accurate measurements

Code: 6540

For our comprehensive range of slings available

See pages 133 - 141

Code: 6530

Safe working load	225kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 430mm max 1460mm
Turning radius	1630mm
Base spread method	Electric
Emergency lowering	Manual/electric
Overall dimensions	W 670mm L 1400mm H 1460mm
Base dimensions	L 1350mm H 120mm
Width inside base	min 550mm max 1020mm
Width outside base	min 670mm max 1150mm
Product weight	40kg

- Smart™ monitor diagnostic and service controls
- Powered base spread for excellent access around furniture
- Twin pivoted front castors offer good manoeuvrability
- Enables lifting from the floor
- 6-point cradle provides improved comfort for larger clients
- Tested to AS/NZ ISO 1 0535, the global standard for patient hoists
- Castors: 2x 100mm twin at front, 2x 100mm braking at back

## Journey sit-to-stand hoist

### ACCESSORIES

For our comprehensive range of slings available

See pages 133 - 141

Code: 6525

Safe working load	155kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 720mm max 1530mm
Turning radius	1145mm
Base spread method	Manual (foot pedal)
Emergency lowering	Manual/electric
Emergency stop	Yes
Overall dimensions	W 685mm L 935mm H 1130mm
Base dimensions	L 935mm H 110mm
Width inside base	min 590mm max 875mm
Width outside base	min 685mm max 970mm
Foldable	Yes
Product weight	40.2kg

- Compact folding design of sit-to-stand hoist makes storage and transportation easy
- Unique height adjustable cow-horn function
- Ergonomic design
- Smart™ Monitor diagnostic control system
- Contoured, height adjustable knee pad
- Removable foot tray for walking/rehabilitation activity
- Castors: 2x 75mm at front, 2x 100mm at rear
- Tested to AS/NZ ISO 10535, the global standard for patient hoists

## Molift Smart 150 mobile hoist

### ACCESSORIES

#### Travel bag

Code: 66509

For our comprehensive range of slings available

See pages 133 - 141

Code: 66508

Safe working load	150kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 210mm max 1665mm
Turning radius	1300mm
Base spread method	Manual
Emergency lowering	Manual/electric
Overall dimensions	L 1200mm H 1315mm
Base dimensions	L 1180mm H 105mm
Width inside base	min 545mm max 925mm
Width outside base	min 660mm max 1030mm
Product weight	25.8kg

- Lightweight foldable portable full body hoist
- Lifts from floor
- 4-point suspension means sling is more open to reduce pressure and patient has no barriers to visual communication with carer
- Unique push bar provides the best possible natural grip and many grip possibilities
- Folds without tools and is compact for storage when not in use

## Molift partner 255 mobile hoist

### ACCESSORIES

4-point spreader bar

Code: 66524 450mm

Code: 66525 550mm

Code: 66527 650mm

Code: 66523

Safe working load	255kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 390mm max 1680mm
Turning radius	1300mm
Base spread method	Electric
Emergency lowering	Manual/electric
Overall dimensions	L 1285mm H 1905mm
Base dimensions	L 1180mm H 115mm
Width inside base	min 550mm max 1065mm
Width outside base	min 690mm max 1205mm
Foldable	No
Product weight	42.5kg

- Ideal for complex situations in acute and critical care areas
- Excellent hoisting range of 370 – 1790mm allows easy hoisting from the floor as well as high surfaces
- Straight vertical column with a fixed sling bar provides excellent stability and maintains the user at a good distance from the column
- 4-point sling bar ensures a comfortable and spacious hoisting position
- With a total weight of 42.5kg this is one of the lightest in its category
- Excellent construction design and wheels make it very easy to manoeuvre
- Equipped with environmentally friendly NiMh-battery

## Molift mover 300 mobile hoist

### ACCESSORIES

⊖ 4-point spreader bar with inbuilt weight scale

Code: 66520

Code: 66516

Safe working load	300kg
Lifting method	Electric
Lift from floor	Yes
Lifting height	min 375mm max 1775mm
Turning radius	1400mm
Base spread method	Electric
Emergency lowering	Manual/electric
Overall dimensions	L 1285mm H 1395mm
Base dimensions	L 1250mm H 115mm
Width inside base	min 550mm max 1065mm
Width outside base	min 690mm max 1205mm
Product weight	39.3kg

- High hoisting capacity of 300kg
- Ideal solution for hospitals and care facilities with bariatric clients who have frequent and everyday moving and handling needs
- Lightest hoist in its category
- Provides good free hoisting space and possibility for gait training
- Unique construction and wheel positioning provides excellent manoeuvrability
- Hoists easily from the floor, reaching down to 370mm at the lowest. Excellent maximum hoisting height at 1770mm
- The hoist is equipped with an environmentally friendly NiMh-battery
- Comes with a 4-point sling bar. Can be interchanged with another easily without tools

## Molift quick raiser 205 sit-to-stand hoist

Code: 66507

Safe working load	205kg
Lifting method	Electric
Lifting height	min 615mm max 1652mm
Knee support adjustment	min 390mm max 500mm
Turning radius	970mm
Base spread method	Electric
Emergency lowering	Manual
Overall length	1297mm
Base dimensions	L 950mm H 120mm
Width inside base	min 540mm max 940mm
Width outside base	min 665mm max 1065mm
Product weight	44kg

- Ideal for users who can stand and weight bear, yet require more assistance
- Active 4-point lifting arm provides extra support
- Mimics the natural pattern of sit to stand
- Electrically adjustable legs enables accessibility around toilets, lift-out chairs and wheelchairs
- The unique wheel position, angled push bar and excellent weight distribution provide a small turning radius and easy manoeuvrability, even in narrow spaces
- 75mm leg height fits under most beds and chairs

## Molift quick raiser 2 sit-to-stand hoist - U-shape arms

Code: 66821

Safe working load	160kg
Lifting method	Electric
Lift from floor	No
Lifting height	min 990mm max 1730mm
Turning radius	1450mm
Base spread method	Electric
Emergency lowering	Manual
Overall dimensions	L 1265mm H 1280mm
Base dimensions	L 1150mm H 100mm
Width inside base	min 245mm max 1105mm
Width outside base	min 360mm max 1200mm
Foldable	No
Product weight	37.5kg

- Sit-to-stand hoist with electrically adjustable leg base
- U-shape arms have more space between the attachment points
- Compact design, stable and easy-to-use
- Ideal for users with some weight bearing capacity
- Unique wheel position and near perfect weight distribution of the base provides a small turning radius with easy manoeuvrability, even in narrow spaces
- Imitates natural pattern of movement
- Knee pads that are height adjustable and can be rotated for better fit and to give more support to the legs
- Low base (100mm) fits under most beds and chairs while the electrically adjustable legs enables accessibility almost everywhere

## Molift quick raiser 2 sit-to-stand hoist - V-shape arms

Code: 66832

Safe working load	160kg
Lifting method	Electric
Lift from floor	No
Lifting height	min 990mm max 1730mm
Turning radius	1450mm
Base spread method	Electric
Emergency lowering	Manual
Overall dimensions	L 1265mm H 1280mm
Base dimensions	L 1150mm H 100mm
Width inside base	min 245mm max 1105mm
Width outside base	min 360mm max 1200mm
Foldable	No
Product weight	37.5kg

- Sit-to-stand hoist with electrically adjustable leg base
- V-shape arms are easy-to-use and fit most users
- Compact design, stable and easy-to-use
- Ideal for users with some weight bearing capacity
- Unique wheel position and near perfect weight distribution of the base provides a small turning radius with easy manoeuvrability, even in narrow spaces
- Imitates natural pattern of movement
- Knee pads that are height adjustable and can be rotated for better fit and to give more support to the legs
- Low base (100mm) fits under most beds and chairs while the electrically adjustable legs enables accessibility almost everywhere

## i-swim mobile pool lift

Code: 5500

Safe working load	136kg
-------------------	-------

Overall dimensions	W 640mm L 1267mm H 1512mm
--------------------	---------------------------------

Product weight	140kg
----------------	-------

- Attendant-controlled portable lifting device to enable users with restricted mobility to access swimming pools safely
- Parallelogram lifting structure
- Patented anti-tip and stabilising system
- Up to 40 cycles between charges
- Easy to move
- Battery charger and load indicator included
- Emergency stop button
- Aluminium and stainless steel construction
- Powder-coated for durability
- 4 wheels, 2 with brakes

## i-swim2 mobile pool lift

Code: 5501

Safe working load	136kg
-------------------	-------

Overall dimensions	W 760mm L 2510mm H 1500mm
--------------------	---------------------------------

Product weight	300kg
----------------	-------

- Portable lifting device to enable users with restricted mobility to access swimming pools safely
- Can be used independently by the user
- Parallelogram lifting structure
- Patented anti-tip and stabilising system
- Handheld controls
- Approx 50 cycles per battery charge
- Easy to move
- Considerably lighter and easier to move than other user-operated portable pool lifts
- Aluminium and stainless steel construction

## i-swim2 mobile maxi pool lift

Code: 5502

Safe working load	120kg
Overall dimensions	W 780mm L 2324mm H 1764mm
Product weight	300kg

- Portable lifting device to enable users with restricted mobility to access swimming pools safely
- This model has further extended arms for additional clearance
- Can be used independently by the user
- Parallelogram lifting structure
- Patented anti-tip and stabilising system
- Handheld controls
- Approx 50 cycles per battery charge
- Easy to move
- Considerably lighter and easier to move than other user-operated portable pool lifts
- Aluminium and stainless steel construction

## i-swim2 mobile spa pool lift

Code: 5503

Safe working load	136kg
Overall dimensions	W 780mm L 1900mm H 2215mm
Product weight	300kg

- Portable lifting device to enable users with restricted mobility to access above ground swimming pools and spas on their own
- Can be used independently by the user
- Parallelogram lifting structure
- Patented anti-tip and stabilising system
- Handheld controls
- Approx 50 cycles per battery charge
- Easy to move
- Considerably lighter and easier to move than other user-operated portable pool lifts
- Aluminium and stainless steel construction

## Molift raiser pro transfer aid

Code: 66553

Safe working load	170kg
Knee pad height (top of pad)	min 300mm max 510mm
Overall dimensions	W 540mm L 630mm H 1200mm
Foot plate height	57mm
Product weight	14.2kg

- Two soft padded leg supports can be height adjusted
- Low step with non-slip surface for ease of use
- The front of the platform is curved to fit closer to the toilet
- On the handlebar there are two attachment points for assisting accessories
- Central brake mechanism is activated by one foot on either side
- Made from steel, plastic alloy
- Sit-to-stand and small distance transfer aid
- Ideal for users who have the ability to stand and weight bear
- Good for use in confined spaces and for short transfers, such as between beds, wheelchairs/shower chairs and in toilets
- Stable and easy to manoeuvre
- Multiple grips for both the user and carer

Waist size	600 – 850mm	670 – 920mm	750 – 1050mm	900 – 1100mm	1100 – 1350mm	1120 – 1400mm	1150 – 1500mm
Overall dimensions	W 770mm H 440mm	W 860mm H 510mm	W 970mm H 570mm	W 1050mm H 620mm	W 1250mm H 640mm	W 1360mm H 680mm	W 1470mm H 680mm

- Provides additional support necessary for hoisting and transferring users with impaired muscle tone or amputated limbs
- Extra safety with the built-in waist belt
- Divided legs with extra length for application under both legs
- Additional straps to avoid the legs from sliding out of position, and therefore helping the confidence of the individual
- Features an anatomical cut and padding that provides exceptional support through the entire hoist and transfer situation
- Narrow opening for increased safety
- The sling can be used for hoisting to and from horizontal and sitting positions

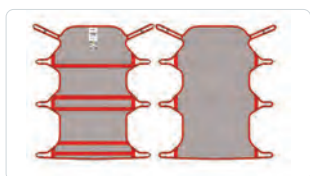

## RgoSling high-back comfort sling

	Code: 66617	Code: 66618	Code: 66619	Code: 66620	Code: 66621
Size	Small	Medium	Large	Extra large	Extra extra large
Safe working load	220kg	220kg	220kg	220kg	220kg
Recommended user weight	25 – 50kg	45 – 95kg	90 – 165kg	160 – 240kg	230 – 300kg

- Full body support sling that provides support for the entire back
- Particularly suitable when the sling is to be left underneath the user in a chair or wheelchair, and for users with muscular or skeletal pain
- Places the user into a more posteriorly tilted position
- The shoulder straps have the unique sliding loop, which provides smooth transition from lying to sitting position and vice versa. Must be applied with the user in a lying position
- Made of a mesh polyester material that breathes and dries quickly
- Machine washable up to 85°C

## RgoSling fabric stretcher

Code: 66643

Code: 66644

Size	Medium	Extra large
Safe working load	300kg	300kg
Overall dimensions	W 450mm L 1750mm H with Molift 8 point spreader bar: 420mm	W 920mm L 1850mm H with Molift 8-point sling bar: 420mm

- A soft fabric hoisting device for horizontal transfers
- Alternative to the stretcher
- Suitable when hoisting in a normal sling would be inappropriate due to medical conditions, for example comatose or sedated clients that require a stable recumbent position
- Hoisting with this product requires an 8-point sling bar. The sling bar is compatible with Molift Partner 255 and Molift Air
- Has integrated hoisting straps that are hooked directly to the sling bar, with some possibilities to adjust in length by using the loops
- Multiple hoisting points provide an open and stable horizontal hoist

### ACCESSORIES

⊖ Molift 8-point spreader bar

Code: 66540

- Provides a comfortable sitting position and users can place their arms inside or outside the sling
- The polyester net sling has a red seam in the middle of the back to help ensure that it is positioned symmetrically
- A pocket in the lower back and pockets on the leg supports facilitate application of the sling
- Provides shoulder-height support for active users with good core stability
- Machine washable up to 85°C

## Toto lateral system

Code: 66850

Safe working load	250kg
Overall dimensions	W 750mm L 1800mm
Product weight	6.7kg

- Includes Toto touch control unit, platform including a fitted cover, CPR deflation valve and tubing set, pair of air cells with quick connectors and platform transport bag
- Adaptive profiling platform designed for compatibility with any bed frame in any profiled or 'rise and recline' position
- Quick and easy installation
- Promoting safety by removing the need for additional manual handling aids
- Weighs less than 7kg and delivered fully assembled in a transport bag

## Vendlet V5S Speed adjustable electric patient turner

Code: 0100-6100050

Safe working load	200kg
Overall dimensions	W 75mm on each side of bed L 2000mm
Noise level at max. load	65 db(A)
Product weight	58kg

- This powered turning system is a fully automatic transfer aid that is used to turn and reposition clients in bed
- Speed adjustment allows for an even calmer and slower transfer
- Consists of a slide sheet, a turning sheet, a hand control and two motorized bars which are mounted on each side of the bed. The bars can be raised and lowered
- Improved work health and safety as turning a patient is often a two-person job, but with this transfer aid, one person can do the job on their own without compromising the quality of care
- Built-in side rails - when the bars are left up, the Vendlet patient turning aid functions as a built-in bed rail, which has been tested and approved by an independent test institute (TÜV)
- Space saving: the side supports can be vertically adjusted up and down rather than outwards. This means the carer is able to get closer to the client along with the device only taking up an additional 75mm on each side of the bed

## Vendlet V5S+ (Bari) Speed adjustable electric patient turner

Code: 0100-6100150

Safe working load	400kg
Overall dimensions	W 75mm on each side of bed L 2000mm
Noise level at max. load	65 db(A)
Product weight	58kg

- An assistive device for moving and handling bariatric patients in bed
- Speed adjustment allows for an even calmer and slower transfer
- Consists of a slide sheet, a turning sheet, a hand control and two motorised bars which are mounted on each side of the bed. The bars can be raised and lowered
- Possible to turn the patient while the backrest is elevated for those that find it uncomfortable to lie in the supine position because it blocks the airways making it harder to breathe
- Improved work health and safety as turning a patient is often a two-person job, but with this transfer aid, one person can do the job on their own without compromising the quality of care
- Built-in side rails - when the bars are left up, the Vendlet patient turning aid functions as a built-in bed rail, which has been tested and approved by an independent test institute (TÜV)
- Space saving: the side supports can be vertically adjusted up and down rather than outwards. This means the carer is able to get closer to the client along with the device only taking up an additional 75mm on each side of the bed

- Material: 100% nylon

Code: 0100-2600200 2700mm

Code: 0100-2600204 3200mm

### Vendlet turning sheet with quick tag

- Fitted to the basic Vendlet turner for use in conjunction with the slide sheets

## Softech® Slide transfer sheet

Code: 195

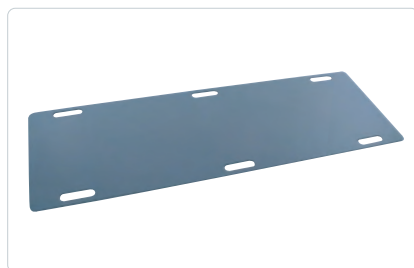

Code: 195XL

Overall dimensions

W 1100mm  
L 1400mmW 1500mm  
L 2000mm

- Super slippery, low friction material
- Machine washable

## Hull® Transfer board

Code: 193

Safe working load

120kg

Overall dimensions

W 520mm  
L 1500mm

Product weight

4.6kg

- Features 6 large cut out handles that are well positioned to make it easier for carers to hold in an optimal position
- Supports smooth transitions and positioning
- Made from lightweight PVC

## Immedia 3B transfer board

Code: 66438

Safe working load

150kg

Overall dimensions

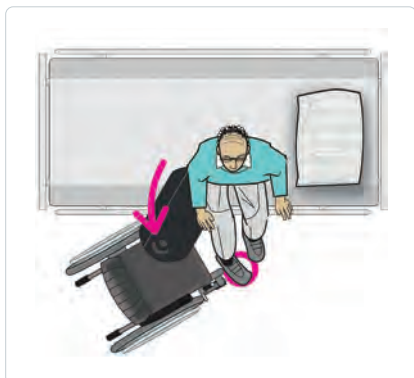

W 230mm  
L 770mm

Material

Polyethylene

- A stable transfer board with a traditional curved shape
- Support transfers from bed to wheelchair and transfers in and out of the car
- Can also be used for transfers between wheelchair, chair, toilet, shower chair, and commode
- Non-slip surface on the underside

## Immedia Transfer E-board

Code: 66439

Code: 66440

Size	Small	Medium
Safe working load	150kg	150kg
Overall dimensions	W 200mm	W 250mm
	L 450mm	L 600mm
	H 6mm	H 6mm
Product weight	0.4kg	0.77kg

- Non-slip surface on the underside
- A transfer board intended to bridge shorter gaps when performing seated transfers
- Thin and flexible transfer board that allows easier application and removal
- Can also be used for transfers in and out of the car and between wheelchair, chair, toilet, shower chair and commode
- Used for transfers from bed to wheelchair or shower chair

## Immedia MultiGlide glove

Code: 66495

Safe working load	200kg
Overall dimensions	W 200mm L 500mm

- Used for positioning, small re-positioning adjustments and hand check of anti-decubitus cushions and mattresses
- Multi-functional aid for small transfers

## Immedia glide cushion

Code: 66417

Code: 66418

Code: 66419

Size	Medium	Large	Extra large
Safe working load	200kg	200kg	200kg
Overall dimensions	W 600mm	W 690mm	W 900mm
	L 900mm	L 700mm	L 900mm

- Used for turning in bed, moving up or down a bed and transfers from a bed to wheelchair
- Designed to minimise friction under pressure points and to move higher up in bed
- It also can be used to turn in bed, either independently or assisted

## Immedia SatinSheet 4Direction bed sheet

	Code: 66322	Code: 66324
Size	Midi	Maxi
Safe working load	200kg	200kg
Overall dimensions	W 2000mm L 1400mm	W 2000mm L 2000mm
Satin area dimensions	W 1470mm L 1400mm	W 1470mm L 2000mm

- Reduces friction in all four directions allowing smooth repositioning in bed
- Cotton/polyester sheet with a satin underside which stays on the base
- Sheet to allow movement in four directions
- Nylon handles can be combined with a hoist for turning

## Immedia SatinSheet DrawSheet - Midi

	Code: 66320
Safe working load	200kg
Overall dimensions	W 1400mm L 2000mm

- Designed to make moving a user in bed easier, whatever their ability
- Minimises the risk of pressure, since the SatinSheet reduces the risk of friction and thereby shear
- As the sheets stay in the bed, they enhance comfort for the user and make it easier to reposition, transfer or turn the user

## Immedia SatinSheet 2Direction base sheet

	Code: 66316	Code: 66317	Code: 66312
Size	Single	Super single	180mm bed
Safe working load	200kg	200kg	200kg
Overall dimensions	W 850mm L 2000 mm	W 1050mm L 2000 mm	W 2800mm L 2000 mm
Satin area dimensions	W 650mm L 2000mm	W 800mm L 2000mm	W 600mm L 2000mm

- Low friction satin area in centre of sheet allowing movement from side to side
- Cotton/polyester edge to brake movement and prevent sliding
- Elastic corner straps to fit to mattress

## Immedia butterfly transfer board with GlideWing

Code: 66443/66444

Code: 66443/66445

Size	Large	Extra large
Safe working load	250kg	250kg
Overall dimensions	W 350mm L 400 mm	W 350mm L 475mm
Product weight	2.2kg	2.2kg

- Cut outs in the board allow for positioning against the wheel of a wheelchair
- Non-slip surface on the underside to avoid the board sliding out of place
- Can be used for transferring between bed and wheelchair/shower chair, between wheelchair/chair/toilet chair or to and from the car
- The low friction upper surface of the board allows the user to transfer independently or with assistance
- The GlideWing is mounted onto the board for even lower friction

Hepro transfer assistance system

Code: 4055	
Ceiling height requirement	min 2100mm max 3000mm
Maximum load horizontal on the middle of the pole	100kg

## Individualised solutions

### Spiral

The Spiral is the first six-wheel paediatric base available on the market. Its design promotes the autonomy of the child and allows a 45° tilt around the propulsion wheel.

### Alltrack P3 mid-wheel drive power wheelchair

Ideal for giving children the capability to explore and thrive with dual-action suspension uniquely configured for lighter users while maintaining optimal stability, vibration dampening, performance and comfort.

### Summit MA

This lightweight, manually propelled wheelchair also allows manual standing. Crafted from aircraft-grade aluminium, it's the lightest sit-to-stand wheelchair available, making it easy to transport.

### NEOX

The NEOX incorporates advanced geometric design and revamped technology, resulting in a modern tilt-in-space wheelchair that combines strength, versatility, and maneuverability.

### Levo C3

The Levo C3 is the ultimate powered standing wheelchair perfect for active people on the move. The C3 drive system turns a maneuverable mid-wheel base into a powerful, curb climbing 4-wheel drive action base and offers a brilliant turning circle.

### Summit EL

The new innovative design delivers the features of an active wheelchair and state of the art standing technology, allowing users to reach the perfect standing position, from any seating position they choose.

### XL5 Manual wheelchair

The folding XL5 wheelchair's multiple adjustable settings make it exceptionally versatile. Each and every component is manufactured to uncompromising standards of strength and durability.

### Alltrack M3 Ascent mid-wheel drive standing power wheelchair

The Alltrack M3 Ascent boasts a purpose-built, independent standing module with power tilt/recline and a power articulating centre-mount foot platform.

### Alltrack M3 mid-wheel drive power wheelchair with narrow wheel base

This power wheelchair never disappoints when you need reliability and durability. A narrow wheelbase provides the perfect blend and is ideal for active lifestyles.

## Individualised solutions

### Alltrack R3 all-terrain wheelchair

This power wheelchair is great for users that need outdoor performance, speed, and comfort.

### Alltrack R3 hybrid rear-wheel drive power wheelchair

Ideal for users who demand the outdoor performance, speed, and comfort of a traditional rear-wheel drive but need the manoeuvrability provided by mid-wheel drive.

### Alltrack HD3 mid-wheel-drive power wheelchair

Ideal for larger users and offers uncompromising performance and capability with superior indoor manoeuvrability.

### Bounder heavy duty all-terrain rear-wheel drive power wheelchair

Ideal for active users, featuring weight capacities of 136kg or 204kg and a rear-wheel drive platform for stability in all conditions.

### Big Bounder bariatric rear-wheel drive power wheelchair

Ideal for weight capacities of 272kg or 450kg, featuring a maximised seat width and features a rear-wheel drive platform for stability in all conditions.

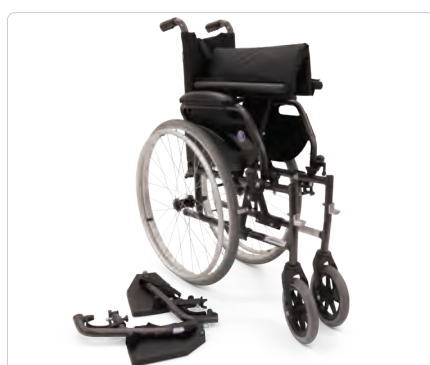

### Want to know more?

## Household aids

### Fix preparation board

Code: 5460

Overall dimensions	W 320mm
	L 300mm
	H 100mm

Product weight	1.3kg
----------------	-------

- Dishwasher safe
- Holds a grater, bowl or piece of food
- Great for one handed operation
- Removable spiked plate
- Suction feet

### Long-handled sponge

Code: 1088093

Length	550mm
--------	-------

- Helps reach hard to get at places
- Promotes independence
- Handle can be bent into desired position by heating using hot water or a hair dryer

### Chevron® multi-tray trolley

Code: 290

Overall dimensions	W 465mm
	L 490mm
	H min 785mm max 935mm

Product weight	5kg
----------------	-----

- Ideal for indoor use
- Lightweight frame
- Assists in transporting smaller household items
- Height adjustable
- Removable, heat-resistant trays
- 4x 75mm castors

## Leg lifter

Code: 1170

Length	680mm
--------	-------

- Helps users raise and reposition their legs
- Promotes muscle movement and mobility

## Bath shower set

Code: 190

Hose length	1.5m
-------------	------

- Assists showering in the bath
- Wall bracket included
- Simply push onto tap

## Hull® easireach stick

Code: 144

Code: 146

Length	680mm	820mm
--------	-------	-------

- Enhanced grip
- Clip for walking stick or frame
- Magnetic end

### OPTIONS

Short Easireach stick: 25 pack

Code: 144-25PK

Long Easireach stick: 25 pack

Code: 146-25PK

## Contenance and plasticware

### Slipper pan

Code: 206

Overall dimensions	L 380mm W 245mm H 70mm
--------------------	------------------------------

- Autoclavable to 135°C
- Built-in rear handle

### Super slipper pan

Code: 207

Overall dimensions	L 450mm W 310mm H 100mm
--------------------	-------------------------------

- Autoclavable to 135°C
- Built-in rear handle
- Large capacity

### Bedpan

Code: 75P

Overall dimensions	L 380mm W 270mm H 65mm
--------------------	------------------------------

- Autoclavable to 135°C

### Male non-spill urinal bottle

Code: 212

Overall dimensions	L 340mm D 80mm H 150mm
--------------------	------------------------------

Capacity	500ml
----------	-------

- Autoclavable to 135°C

### Female non-spill urinal bottle

Code: 212/D

Overall dimensions	L 470mm D 80mm H 165mm
--------------------	------------------------------

Capacity	500ml
----------	-------

- Autoclavable to 135°C

### Urinal bottle

Code: 209

Overall dimensions	W 110mm D 265mm H 150mm
--------------------	-------------------------------

Capacity	1000ml
----------	--------

- Autoclavable to 135°C
- High quality plastic
- Graduated to 1000ml

### Female cygnet urinal

Code: 214

Overall dimensions	L 320mm D 110mm H 150mm
--------------------	-------------------------------

Capacity	1000ml
----------	--------

- Autoclavable to 135°C
- High quality plastic
- Can be used when standing, sitting or lying
- Graduated to 1000ml

## Respiratory

### Pulmo-Aide compressor nebuliser

Code: 805

Overall dimensions  
W 260mm  
D 170mm  
H 265mm

Maximum air pressure  
≥30PSIG

Compressor free air flow  
≥12LPM

Product weight 3.2kg

Nebuliser kit

Adult mask

- Comes with one nebuliser kit and one adult mask
- Designed for multiple uses daily
- In-built compartment for storing parts

### Aluminium oxygen regulator

Code: 819

Overall dimensions  
W 60mm  
L 140mm  
H 65mm

Inlet pressure 300 PSI

Outlet pressure 50 PSI

Product weight 30g

- Compact one-piece body
- Life cycle tested over 20,000 cycles; 10 year usage
- Gauge with gauge protector Viton (fluorocarbon) regulator inlet seal with brass ring
- Flame arrestor inlet fitting to keep flames from entering the regulator
- Maintains precision flow settings from a full (2000 PSIG) to empty (500 PSIG) cylinder

### Suction unit

Code: 806

Overall dimensions  
W 200mm  
D 235mm  
H 215mm

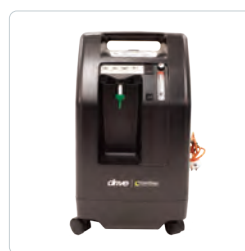

Vacuum range  
80mmHg – 550mmHg

Container capacity  
800ml

Product weight 2.9kg

- Battery or mains powered; rechargeable battery has approx. 60 mins run time (requires up to 17 hrs charging initially). Mains power cord included
- Easy-to-read, built-in regulator and vacuum gauge for quick, accurate adjustments
- Convenient 800ml easy clean canister
- Meets ISO suction and emergency standards
- Compact, lightweight design for portability
- Comes with a carry case
- Comes with 1x spare filter. Replacement filters available

### Devilbiss 5 litre compact oxygen concentrator

Code: 815

Overall dimensions  
W 342mm  
D 304mm  
H 622mm

Oxygen percentage  
1-5 LPM=87-96%

Product weight 16.3kg

- Oxygen Sensing Device is standard, ensuring patient safety and reliability for longer service intervals
- Audible and visual alarms indicate high/low pressure, low flow, low oxygen, power fail, and service required. This helps to keep patients as safe as possible
- Readily accessible patient controls for easier use
- Protected cannula fitting provides additional safety
