R82 Caribou electric standing frame

The R82 Caribou electric standing frame supports various standing positions with its tilt function and accessories. It is suitable for users with limited head and trunk control or restricted range of motion. The frame allows children with disabilities to participate in activities alongside those without disabilities. It comes in four sizes, with options for children between approximately 85cm to 184cm in height.

FEATURES

- Tilts from vertical to horizontal, making it easier for the carer and less stressful for the user to be placed into position
- Supports prone, upright, or supine standing positions
- Designed with a raised frame for easy use of floor hoist
- Made with soft PU material for optimum comfort
- The shape can be moulded to the body using additional wedges, and it has smooth edges for better safety
- Offers a range of different accessories that can be easily interchanged for the convenience of carers
- Equipped with an easy tilt mechanism, allowing the carer to have both hands free
