

Mangar elk lifting cushion

Code: 7301

The elk is a compact, battery powered lifting cushion for single handed care. If someone falls over and they can shuffle on to the cushion or be rolled on from the recovery position and assisted to sit upright, then the elk can then be inflated at the touch of a button with someone supporting the individual from behind to bring them to a raised seated position ready to stand.

FEATURES

- Simple to use, requiring very little training
- Suitable for use inside or out
- Can be used by one carer
- Easy to deflate, fold away and store
- The material is designed to exceptionally high standards with extraordinary durability, strength and performance in the toughest of environments
- Lifts up to 450kg
- Exceptionally rigid and stable
- Ideal for carers of individuals with neurological disorders who fall regularly
- Provides a safe, dignified lift for a fallen person
- Reduces the risk of musculoskeletal injury for the carer
- Can be used in confined spaces where traditional lifting equipment may not fit
