

R82 Mustang walking aid

The R82 Mustang is a walking aid to assist children and young people with disabilities in their daily walking. This walking aid offers excellent upper body support and gentle pelvic support. The upright position encourages walking and active participation in daily activities. Suitable for children with cerebral palsy and motor impairments, the Mustang can be used as an anterior walker or a posterior gait trainer, depending on the child's ability. Available in four sizes and colours.

FEATURES

- Suitable for children with cerebral palsy and motor impairments
- Provides excellent support for the upper body and gentle support for the pelvis
- Stimulates the walking function and encourages participation in daily activities
- Can be used as an anterior walker or posterior gait trainer
- Available in four sizes and colours
