StandardLine is a range of practical washbasins for people with reduced mobility. They are height adjustable and high-quality products designed for environments and users with special needs or requirements. The washbasins are reliable, durable and user-friendly. The unit design hides the plumbing, providing a discrete, elegant, and modern look. The StandardLine unit can be combined with one of three washbasins; the Standard washbasin with a simple and stylish design, the Support washbasin that i...
