

# Vendlet V5S turning system

Code: 0100-6100050

The Vendlet V5S turning system is an innovative assistive device empowering independence and dignity in care. With electric height adjustable rails and intuitive controls, it enables gentle turning or repositioning of clients in bed, enhancing their autonomy while prioritising caregiver safety. Reduce the risk of pressure injury through less friction and shearing. Ideal for diverse needs, it promotes comfort and well-being, with a safe working load of 200kg.

## FEATURES

- Electric height adjustable rails allow independent repositioning
- Reduce the risk of pressure injury through less friction and shearing
- Gentle turning and moving for the client
- Less strain and risk of injury for the carer
- Speed adjustment for an even smoother and slower transfer. Adjust the speed to 50%, 75% or regular
- Change the sheets with the client still in their bed
