

I-MOVE transfer chair

THOUGHTFULLY DESIGNED FOR HOSPITAL AND EMERGENCY DEPARTMENTS, THE I-MOVE TRANSFER CHAIR IS A STACKABLE WHEELCHAIR, THAT SAFELY RECEIVES AND TRANSPORT PATIENTS

The I-MOVE is strong, yet easy to handle and has an aesthetically pleasing appearance. In addition to being practical, I-MOVE provides a touch of modernity and adds colour to your department.

With user-friendly features like a sliding footrest and cushion seat foam, the I-MOVE has been designed to ensure patients can be seated comfortably. To make life easier for hospital teams, front swivel castors help ensure the I-MOVE moves seamlessly, while polyurethane armrests fold up to support safe transfers to/from beds and chairs.

For patient safety, a central braking system can be easily operated from a standing position by the attendant. The I-MOVE is easy clean and space-saving as the chairs stack neatly together when not in use.

FEATURES

- Durable and made to last with epoxy coated steel frame
- Sliding footrest for patient support and comfort
