DDC Dolphin Panamatic Optima 3 bedpan washer disinfector

Code : 9112

The compact Panamatic Optima 3 washer is a large-capacity stainless steel machine designed to suit a high-usage environment. The top opening design provides waist height, easy loading of up to 3 bedpans and 3 urine bottles per cycle. Each 12-minute cycle consists of a cold wash, hot pre-wash and thermal disinfection cycle, guaranteeing a high standard of hygiene. With rounded and illuminated buttons the interface is user-friendly, making the device operation simple and efficient.

FEATURES

- Capacity of three bedpans and three urine bottles or nine bottle option
- Stainless steel 304 grade cabinet lid and wash chamber
- Hands-free opening, manual lid closing and manual start of cycle
- Ultrasonic non-contact sensor promotes hygiene and reduces risk of cross-contamination
- Top-loading for a simple loading and emptying process
- Thorough wash performance eliminating 99.99% of known bacteria
- Standard electrical supply
- Rotating wash nozzles and spray jets ensure a superior wash performance
- Automatic scale management system to prevent calcium build up – suitable for soft and hard water areas
- Robust, long-lasting, and easy-to-clean high-grade stainless steel casing
- Largest capacity model to suit very high usage healthcare environments
- Composite front and front decal contain an antimicrobial agent to significantly reduce the risk of microbial contamination
