Cubro® Overhead lifting solutions

Code : OVERHEAD LIFTING

We specialise in designing and installing overhead lifting solutions for homes, hospitals, and aged care facilities. Our lifting solutions, mounted at ceiling height, free up floor space and simplify movement. They are effective, safe, and available in capacities from 175kg to 500kg, offering effortless operation and exceptional mobility. These solutions reduce strain on carers, minimise injury risks, and enable a single carer to perform secure transfers independently. We also offer comprehensive training, as well as ongoing service and maintenance upon request.

We will work with you, your cl...

FEATURES

- Speed: More time for care
- Efficiency: Always ready for use
- Comfort: Our solutions run effortlessly, are quiet and gentle
- Safety: Simple, intuitive operation; emergency functions
- Ergonomic: Supports good posture and provides space and freedom to move
