# Autolift i-swim 2 mobile maxi pool lift

Code : 5502

The Autolift i-swim pool lifts provide safe access to swimming pools for disabled users and those with restricted mobility. Combining attractive design and ease of use, they are among the world's most popular portable pool lifts.

The i-swim 2 pool hoist is ergonomically designed for independent operation by the user or an attendant. Lighter and easier to move than competitors, it suits facilities that prioritise aesthetics. The maxi model extends the i-swim 2's arms for additional clearance, ensuring easy access to all pool types.

## FEATURES

- Portable lifting device to enable users with restricted mobility to access swimming pools safely
- This model has further extended arms for additional clearance
- Can be used independently by the user
- Parallelogram lifting structure
- Patented anti-tip and stabilising system
- Easy to move
- Approx 50 cycles per battery charge
- Aluminium and stainless steel construction
- Considerably lighter and easier to move than other user-operated portable pool lifts
- Handheld controls
