Etac Molift RgoSling padded medium-back sling

The Molift RgoSling medium-back is a versatile sling, suitable for both homecare and healthcare environments. With built in ergonomics, it offers comfortable support for the body that encourages weight distribution through the legs. The sling is suitable for those with head control.

The Molift RgoSling medium-back is available in a padded and a net option.

FEATURES

- Provides support for the body and is suitable for those with head control
- Features sliding loops, application pocket in the back and legrests, and straps for increased weight distribution in the legs
- All-round sling that fits most users and hoisting situations
- Made of soft net mesh polyester material that breathes well and dries very quickly
- Padded version available
- Mesh material is suitable for shower and bathing situations
