R82 Scallop seat

The R82 Scallop seat is a portable support solution for sitting on floors or chairs, suitable for children and young people with mild to moderate disabilities. The cushions are removable and machine-washable for easy cleaning. It provides stability and mobility for activities like picnics, learning, or everyday use. Four sizes and two colour combinations available.

FEATURES

- Aids floor sitting and adds extra support in chair sitting
- Lightweight, portable, and versatile
- For children and teens with mild to moderate disabilities
- Comes in four sizes, catering to infants from 9 months to teens
- Cushions can be removed from their shells and machine-washed for easy cleaning
- Allows users to move while seated and supported
- Provides stability without restricting movement
- Ideal for various activities like picnics, learning in school, and more
- Two playful colour combinations available: red and blue or green and grey
