R82 x:panda shape floor frame

Code : 0500-9106

The R82 x:panda shape floor frame supports early intervention through the option of supported floor sitting. Sitting at floor level can support playful activities with family, siblings and friends and facilitate meaningful tasks with arms and hands such as reaching and grasping for toys. It has 5 leg position options for both front and back legs, enabling 4 seat-to-floor heights and a variety of tilt angles.

FEATURES

- To suit the R82 x:panda shape
- Supports floor-level sitting for early intervention
- 5 leg positions front and back
- 4 seat-to-floor heights
- Variety of tilt angles
- Long legs also available

R82 x:panda shape floor frame
