R82 Addax elbow support

Code : 0500-912153

The R82 Addax elbow support extends the tray at the back, helping children who need extra support to maintain their arms in front of the body. It encourages comfortable, stable arm positioning during standing, supporting good posture and use of the prone tray. Available in one size, compatible with the R82 Addax standing frame.

FEATURES

- Extends the tray at the back for additional arm support
- Helps children maintain their arms in front of the body
- Supports comfortable, stable arm positioning while standing
- One size, compatible with R82 Addax
