R82 Addax support belt

Code (s) : 0500-912112-90, 0500-912111-90

The ratchet support belt for the R82 Addax standing frame is designed to provide a customised and snug fit for both the pelvis and chest area. The ratchet system allows fine adjustments in small increments while the child is in the stander. This ensures a precise and comfortable fit, helping the child maintain an upright position and enabling participation in activities and engage in social interaction. The circumference is easily adjusted with hook and loops and secured with a buckle, making setup quick and secure.

FEATURES

- Customised, snug fit via ratchet system
- Fine increment adjustments
- Secured with hook and loop and buckle
