R82 Gazelle PS standing frame

Code (s) : 0500-88010-1, 0500-88010-2, 0500-88010-3

The R82 Gazelle PS is an advanced standing frame that supports prone, upright, or supine standing. It provides up to 30 degrees of hip abduction in each leg, which can positively impact hip development in children with cerebral palsy by preventing hip migration. Available in three sizes, it is suitable for children approximately 700mm to 1650mm in height.

FEATURES

- Versatile standing frame that supports multiple standing positions such as prone, upright, or supine
- Offers up to 30 degrees of hip abduction in each leg, which can potentially benefit hip development in children with cerebral palsy
- Comes in three different sizes, making it suitable for children ranging from approximately 700mm to 1650mm in height
- The Gazelle PS tilts from vertical to 15° past horizontal. This is an excellent position for respiratory therapy and postural drainage.
- Foldable: From the upright position the Gazelle PS is easily folded. By loosening only one screw, abducting the legs and by lifting it slightly, the Gazelle PS is folded for storage or transportation.
- Manual leg adduction, you can adjust either one or both legs to the optimal angle
- Multi adjustable foot supports
