R82 Chilla anatomic head support

Code (s) : 0500-874085-2, 0500-874085-1

The anatomic head support for the R82 Chilla is contoured and has two fingers at the sides. The contour fits the back of the head, and the two fingers provide support at the edge of the skull, helping maintain the head in midline and an upright position. It is suitable for users who need constant support. A supported, aligned head position can help the user take part in daily activities such as eating and communication.

FEATURES

- Contoured fit for the back of the head
- Side fingers support the skull edge
- Helps maintain midline, upright head position
- Suits users needing constant support
