R82 Chilla canopy

Code (s) : 0500-881080-30, 0500-881080-40

The premium canopy for the R82 Chilla creates shade from the sun and protects against wind, rain and the environment. It can also help reduce external sensory stimulation such as light and sound. The canopy folds away when not in use and expands for extra coverage. Built-in ventilation doubles as a window, so parents can keep an eye on their child and the child can see out. A back pocket stores small items. Available in sizes to fit the Chilla frame, also compatible with x:panda shape.

FEATURES

- Shade and weather protection
- Reduces external sensory stimulation
- Folds away, expandable coverage
- Built-in ventilation window
- Back storage pocket

R82 Chilla canopy
