R82 Multi frame

Code (s) : 0500-972141210, 0500-973141210

The Multi frame gives children a dependable base for everyday mobility. It comes fitted with 12.5″ rear wheels and works with a wide range of seating systems, so you can pair it with the seat that best suits each child's clinical needs.

Its tilt-in-space function is easy to operate. Carers can adjust the child's position for comfort and support with very little effort.

It's built to be durable and easy to use. The frame gives a stable foundation that adapts as needs change and keeps the child well supported through daily activities, at home and out in the community.
