TA iQ FWD power wheelchair

Code : XTAIQFWD02

The TA iQ FWD front-wheel drive power wheelchair offers smooth drive and sharp handling, with front-wheel drive that improves its ability to climb over obstacles. Flexible suspension and 80Ah x2 batteries deliver good performance and longer range over varied terrain, while a 15″ seat height with seat elevate gives access to tables, cupboards, and benches. A 25.5″ turning radius suits everyday indoor use, and it's available on the Enable DSS equipment list.

FEATURES

- Front-wheel drive for better obstacle climbing
- Compact frame with a 25.5″ turning radius
- Low seat height of 15″ for easy table access
- Smooth, flexible suspension for ride comfort
- HiLo elevate range up to 12″ for functional access to tables and cupboards
- Available on Enable DSS equipment list
