TA iQ FWD stand Up PWC wheelchair

Code : XTAIQFWDSU

The TA iQ FWD stand-up power wheelchair is built for someone who spends most of their day in a chair and needs a reliable electric standing option. With the lowest floor-to-seat height on the market at 17″ (430mm) without cushion, users can sit at tables and under desks with ease, and standing power lets them reach higher shelves and cupboards. Its front-wheel drive design and shorter wheelbase make obstacle climbing and indoor manoeuvring simple, while a 4 point tie-down system lets it double as a vehicle seat.

FEATURES

- Electric standing for reach and independence
- Lowest floor-to-seat height on the market at 17″ (430mm)
- Front-wheel drive with a shorter wheelbase for easy obstacle climbing
- Electric seat elevate up to 12″ (300mm) for benches and cupboards
- 180° lie-flat electric recline and 45° power tilt
- Optimum range of 40km with a top speed of 10km/h
- Approved as a vehicle seat with the 4 point tie down system
