Systam back support

Code (s) : XD951DS1HW, XD951D1HW, XD951D1LHW

The Systam wheelchair back support insert supplies comfort and support to the spine and pelvis, providing significant relief from the spinal pressure points. It enables adaptation of the back support to fit most wheelchair models.

FEATURES

- Anatomical shape as the back support insert respects the morphology of the back resulting from syphosis and the anatomy of the low lumbar, an important aspect of posture
- Improved comfort as side padding on the wheelchair back cushion protects the axillary-dorsal zone from contact with the frame of the chair
- The central white zone on the wheelchair back support insert is made from a flexible foam that provides gentle support for high-risk zones
- The outer blue zone is firmer to transfers pressure from high-risk areas and accentuates lateral stability
- The wheelchair back cushion cover consists out of 3 fabrics that provide a perfect and comfortable fit
- Removable cover
- Cover is machine washable up to 95°C and 1000rpm spin cycle
