# NXT Optima carbon active contour backrest

Back support for wheelchair users with an active lifestyle that wish to keep the total weight of their wheelchair down without sacrificing material strength or performance.
The QuickFit mounting system allows easy adjustments while clients are seated, with reversible brackets and hassle-free clamp removal. Made from ultra-light T700 carbon fiber, it offers rigidity and support. The higher lateral contours improve thoracic support, while the dual density foam back cushion features a washable antimicrobial cover for hygiene.

## FEATURES

- Quickfit mounting system
- Reversable brackets to create an increased seat depth
- Light and rigid
- Adjustable back angle
- Ultra-light carbon fibre shell
- Lateral contours to support the thoracic region
- Dual density foam back cushion with washable antimicrobial spacer mesh cover
- Various sizes available

# NXT Optima carbon active contour backrest
