NXT Biofit Visco foam cushion

The NXT BioFit foam wheelchair cushion is a stable, multi-layer contoured wheelchair cushion utilising the latest in Visco Gel foam technology. The BioFit multi-layer design provides deep immersion and support for skin protection by redistributing pressure over the full sitting surface of the wheelchair cushion.
The BioFit is designed for comfort and positioning for users who are at moderate to high risk of skin breakdown.

FEATURES

- Moderate level of support
- Visco gel foam technology reduces heat build-up, which minimises skin integrity issues
- Compression cut contoured base evenly distributes pressure under the pelvis
- Reduced pressure injury risk as cushions are designed to protect skin and maximise mobility, activity and function
- Comes with an air mesh, outer cover and standard fluid proof Incotec inner cover
- Cover can be removed for delicate machine wash. Inner cover can be cleaned with a damp cloth

NXT Biofit Visco foam cushion
